## LATE PARTICULARS

Under this we publish articles and give notes on items which could not be included in the body of the text.

### AKHIL BHARAT HINDU MAHASABHA \*

(Hindu Mahasabha Bhawan, Mandir Marg, New Delhi 1.)

**President :** Nitya Narain Banerjee.

**Vice-Presidents :** Prof. Ram Singh, Mahant Digvijay Nath, Jnanendra Nath Banerjee, Giani Pindi Dass, Yashwant Rao Joshi, Dr. D. S. Parchure.

**General Secretary :** Pt. Brijnarayan Brajesh.

**Total membership of Party :** 7,12,000.

The aim of the Hindu Mahasabha is to establish a really democratic Hindu State in Bharat, based on the culture and tradition of Hindu Rashtra and to re-establish Akhand Bharat by all constitutional means.

**Other Activities :** The Hindu Mahasabha organized in December, 1965 a conference "Vishwa Hindu Dharma Sammelan" (World Hindu Religious Convention) of Hindus including the Buddhists, Jains and Sikhs etc. all over the world. A permanent committee of the "Vishwa Hindu Dharma Sammelan" is being formed to carry on the aims and objects connected with it.

#### MANIFESTO

The election manifesto of the Sabha says that it is absolutely essential to amend the Constitution in such a way as to guarantee the fullest civil liberty to all citizens of Hindustan, including the minorities, irrespective of their allegiance to any caste or creed but whose loyalty to the State is above doubt.

It promises "just and fair treatment" to all non-Hindu minorities with full opportunities to develop their language, religion and culture and recruitment to services strictly on the principle of merit. But the Sabha insists that they should merge themselves in the main current of Hindu nationalism and give up separate national consciousness on the basis of religion and culture.

#### Foreign Policy

On foreign policy, the Sabha stands for befriending all neighbouring Hindu nations such as Nepal, Sikkim, Bhutan, Burma and Ceylon and calls for non-involvement and non-interference in the affairs of other countries.

The manifesto also stands for the liberation of Indian territory from the control of foreign Powers by "all possible means" and the liberation of Tibet from Chinese domination so that it should serve as a buffer State between India and China.

The Sabha wants India's withdrawal from the Commonwealth so that India becomes a "really independent country, free from British influence in our internal and external policies."

The Sabha wants the Government to manufacture nuclear weapons for defence purposes "without being bullied by our enemies".

It promises training in guerilla and mountain warfare in border regions and the creation of a 20-mile-broad safety zone along the Pakistani border.

#### Language Policy

On language, the Sabha stands for resisting all attempts made to dislodge Hindi from the place it has been given in the Constitution as a Union language.

The Sabha wants all administrative work to be conducted in the language which the masses speak.

On Kashmir, the Sabha stands for the abrogation of Article 370 of the Constitution which gives special status to that State.

It also wants the imposition of "effective curbs" on the activities of foreign Christian missionaries.

The party has also promised the nationalisation of all key industries, including coal and steel, means of transport and communication and the industries dealing with war materials and defence weapons.

It has also promised equal opportunity to all and equitable distribution of industrial profits between workers, the entrepreneurs and consumers by the setting up of proper control machinery.

The Sabha has also promised a ban on cow slaughter.

### ALL INDIA FORWARD BLOC

(Central Office, Chhindwara, Madhya Pradesh.)

**Chairman :** Hemanta Kumar Bose, M.L.A.

**General Secretary :** R. K. Haldulkar.

The party advocates the nationalisation of all key industries in the country, equitable redistribution of land with special provision to allot land to the landless peasants, fair wage to the workers, right to strike and full trade union rights to the workers, appointment of a Commission to go into the economic condition of

kisans and suggest means of greater production of foodgrains to meet the deficit, action to vacate aggression of China on the northern frontiers of the country, free education to the students upto the degree level and up-to-date training of our defence forces to meet any aggression from outside.

The Party is opposed to any talks with Pakistan over the Kashmir issue and wants military action to vacate the Pak-occupied portion of Jammu and Kashmir.

The 9th Plenary Session and the Silver Jubilee Session of the party in the 25th year of its existence was held at Madurai from 18th to 20th February 1966. The Party has increased its strength from 12,000 to 40,000 in membership and it was decided to contest the forthcoming 1967 General Elections in full strength if possible in alliance with other opposition political parties. The Party has removed Hammer and Sickle from the Flag of the Party to distinguish it from the Communist Party.

### BHARATIYA JAN SANGH

(Ajmere Gate, Delhi.)

**President :** Prof. Balraj Madhok.

**Vice-Presidents :** Jupudi Yagnanarain; Bhairon Singh Shekhawat.

**General Secretary :** Pt. Deendayal Upadhyaya.

**Secretaries :** Jagannathrao Joshi; Sunder Singh Bhandari; Nanaji Deshmukh; Yagya Dutt Sharma.

**Treasurer :** Bachhraj Vyas.

**Office Secretary :** J. P. Mathur.

**Total membership of party in country :** more than 25,00,000.

Has branches all over India including NEFA, Tripura & Kashmir.

#### AIMS AND OBJECTS

Integral Humanism is the ideal. Unitary form of Government by democratic peaceful means. Establishment of Dharma-Rajya i.e. the Rule of Law. Ending all disparities in economic and social structure of the Society.

The present emergency in the country should go.

Kashmir an integral part of India.

No plebiscite in Kashmir; and no special position to Kashmir in the Indian Union: same status as other States. Stands for merger of territories previously held by the French and

Portuguese, into the adjoining States.

Stands for (1) primary education through the mother tongue, (2) secondary and higher education through the regional language and Hindi as compulsory subject, (3) making learning of one regional language compulsory for Hindi-speaking students, (4) compulsory course of Sanskrit studies, (5) recognition of graduates of Hindi and of other recognised Indian languages as on par with English, (6) autonomy of educational institutions and universities, (7) regional language to be allowed as medium of instruction upto the highest class; (8) Provincial language to be made administrative language in their respective areas.

\* The articles in this section are based on the material provided by the parties themselves.

Free and compulsory education at the primary and secondary stages. Free education to poor but deserving students at the higher stages.

The party is opposed to co-operative farming.

### 1967 ELECTION MANIFESTO

The working committee of the Jan Sangh declares in its election manifesto that the party would constitute a high-power commission to inquire into cases of corruption even at the highest level.

A code of conduct for representatives of the people would be framed and a special law enacted to penalise corruption at the political level.

The Jan Sangh will institute an inquiry into the assets of all ex-Ministers and other high officials. The party will relax all controls.

The party would make uniform pay scales and emoluments for employees engaged in Central, provincial and local bodies, and create an effective and fully representative negotiating machinery on the lines of the British Whitley Councils to allay the grievances of government employees without delay.

### FREE EDUCATION

No restrictions will be placed on fundamental rights and democratic privileges, which could be misused by the administration to throttle democracy and suppress individual liberty."

The party would try to implement free compulsory education to all children up to the age of

11 within the next five years and would further seek to make education free up to the higher secondary stage.

Education system is to be reformed so as to bring it in tune with modern attainments and national values.

Jan Sangh would bridge gulf between the people's sentiments and the Government policies and take all necessary steps to regain the lost territories.

The manifesto stated that the policy of non-alignment can neither be our creed nor a permanent basis of our foreign policy. With a view to safeguarding the nation's interests and integrity, the Jan Sangh would follow an independent foreign policy and enter into bilateral alliances with countries irrespective of their allegiance to the power blocs.

It added, India had no quarrel with the people of Pakistan. Jan Sangh sympathises with all the movements of Pakistani people organised for freedom and has faith in the ultimate unification of India and Pakistan. The Sangh will lend full support to the struggle of the African peoples against apartheid and the illegal white government of Rhodesia.

If voted into power, the Sangh, on the one hand shall adopt short-term measures to alleviate the acute food and foreign exchange crisis and arrest the upward movement of prices and on the other a long-term plan will be formulated to lay the foundations of a self-reliant, prosperous and egalitarian economy.

### PUBLIC SECTOR

So far as the public sector is concerned, there will be a planning cell in each Ministry and it will prepare detailed plans of each project.

The manifesto proposed to replace the present Planning Commission by a small committee or commission of experts who will prepare a perspective plan and from time to time will apprise the Government and the people about the overall trends in the economy.

On the food front, the programme to be undertaken by the Jan Sangh will include the setting up of a food corporation with branches in all States, abolition of the system of levy and monopoly purchases and the abolition of food zones.

### INCENTIVES TO FARMER

There will be remunerative and incentive prices for food crops and the Food Corporation will enter into forward contracts with the producers and advance them money.

To step up production, farmers will be given fertilizers, seeds, bullocks and implements at subsidised rates, while marketing or multi-purpose co-operative societies will act as agents for the food corporation.

The Jan Sangh would give first priority to agriculture and introduce land reforms relating to the abolition of intermediaries.

The Jan Sangh will oppose the nationalisation of banks and the expansion of the public sector in any other field except power, mineral oils and defence industries.

## COMMUNIST PARTY OF INDIA (MARXIST)

Central Committee Office :

66/1A, Balihak Khana Road, Calcutta.

The Communist Party of India (Marxist), is the party of the Indian working class wedded to the ideology of Marxism-Leninism with the aim of building Socialism and Communism in India through the establishment of a People's Democratic State as the first stage.

The Communist Party has today grown to become one of the strongest opposition parties in the country.

The Seventh Congress of the Party held in Calcutta in October-November, 1964 adopted a programme based on Marxism-Leninism for carrying forward the Indian people's struggle for Socialism to success.

The Programme envisages the replacement of the present State and Government by a State of People's Democracy and a Government led by the working class on the basis of a firm worker-peasant alliance. The People's Democratic Revolution is essentially anti-feudal, anti-imperialist, anti-monopolistic and democratic.

The Programme lays emphasis on the task of carrying out radical agrarian and other reforms in the interests of the peasantry. The programme includes eradication and summary expulsion of

the foreign monopoly capital from our national economy and thus free the economic, political and social life of our people from all its disastrous influences.

The Party is represented in the Lok Sabha, Rajya Sabha and is recognized in the four States of Kerala, Andhra Pradesh, West Bengal and Tripura by the Election Commission.

The structure of the Party is the Branch in the factory, other establishments and villages, with the Local or Town Committee above it, then the Taluk Committee, the District Committee with its Secretariat, the State Committee with its Secretariat and the Central Committee with its Polit Bureau.

The Party runs a central English weekly "People's Democracy" and a Hindi weekly "Swadhinta", and has dailies in Kerala (Deshabhimani) and Andhra Pradesh (Janashakti) and weeklies in Tamilnad (Theekkathir), Karnataka (Aikya Ranga), Maharashtra (Jeevan Marg), West Bengal (Desh Hitaish), Assam (Gana-shakti), Orissa (Janapatha), Punjab (Lok Jamhuriat) and in Jammu and Kashmir (Jammu Sandesh).

**Polit Bureau :** General Secretary : P. Sundar-ayya, **Members :** E. M. S. Namboodiripad ; A. K. Gopalan ; P. Ramamurti ; M. Basavapurniah ; B. T. Ranadive ; Promode Dasgupta ; Jyoti Basu and Harkishan Singh Surjeet.

### ELECTION MANIFESTO

Despite the sharp ideological feud, the Communist Party of India (Marxist) reveals a close similarity in its overtures to the electorates.

The party stands for nationalisation of banks, reduction of taxes on the basic necessities of life, radical agrarian reforms and greater autonomy for the States. It wants to scrap the 'Emergency' and 'Defence of India Act' and other repressive laws. Free and compulsory education upto the secondary stage and equality of all languages with the status of second regional language for Urdu in States with sizable Urdu-speaking population are favoured by the party. As in the case of its counterpart (C.P.I.), this party also is in favour of nationalisation of foreign trade and foreign capital in several key industries. This party has also promised a "people's plan" for economic development of the country.

## COMMUNIST PARTY OF INDIA (RIGHT)

(7/4, Asaf Ali Road, New Delhi.)

**Chairman :** S. A. Dange ; **General Secretary :** C. Rajeswara Rao.

### The Policy :

Reorganise administration and services in such a way as to make them subordinate and responsible to popularly elected State organs at all levels.

Grant universal and equal suffrage to all male and female citizens of India who have attained

the age of 18 years in elections to Parliament, legislative assemblies and local bodies through secret ballot ; introduce proportional representation in all elections and right of recall of elected representatives by majority of electors.

Abolish second chambers and such reactionary, out-dated institutions and practices as the post of State Governors, rule by ordinances, detention without trial and privy purses and other privileges of the princes.

Enforce directive principles of the Constitution like right to work, living wage, free education, social security, etc.

Ensure inviolability of person and domicile unhampered freedom of conscience, religious belief and worship, speech, press, assembly and organisation, strike and combination, freedom of movement and occupation.

Abolish social disabilities from which women suffer.

Abolish social and economic oppression of one caste by another. Make such oppression punishable by law. Strengthen secular basis of the State.

Separate judiciary from the executive. Ensure simpler, cheaper and speedier justice within reach of the common man. Provide free legal aid for poorer sections of population.

Reorganise taxation system and base it on principle of capacity to bear burden. Introduce ceiling on profits, and incomes and graded tax system in industry, trade and agriculture.

Introduce state-trading in essential commodities like foodgrains, cloth, etc. and supply them to people at reasonable prices.

National minimum wage should be fixed and workers should be assisted in securing fair wages which should be above the minimum. Sliding scale of D.A., bonus, gratuity and holidays with pay.

Enlarge and liberalise social security measures, such as provision against unemployment, ill-health and old age. Provide housing facilities at cheap rent.

Guarantee full trade union and democratic rights.

Break concentration of land by abolishing all forms of landlordism, by imposing effective ceilings on landholdings and distributing surplus land to agricultural labourers and poor peasants free of cost.

All land reform measures be implemented with the help of popular committees of accredited

representatives of peasants and agricultural labourers. Financial and technical aid also be distributed in a similar way.

Introduce graded land tax based on income, exempting all uneconomic holdings from tax.

Organise multipurpose cooperatives to provide cheap credit, seed, manure, pesticides, etc. to peasants and ensure remunerative prices for their products. Provide cheap irrigation facilities; start agro-industries in the countryside.

Ensure adequate wages and living conditions for agricultural labourers.

#### 1967 ELECTION MANIFESTO

The C.P.I. stands for the elimination of the Congress rule.

The manifesto explains the differences between C.P.I. and its Marxist counterpart as well as certain other opposition parties.

It stands for the total elimination of foreign monopolies. All industrial concerns, financial and business enterprises owned by foreign monopolies should, therefore, be nationalised. It stands for the closing down of speculative markets and exchanges, nationalisation of banks, a "people's plan" to replace the Fourth Plan, stoppage of payment of compensation to big landlords and of privy purses, overhauling of the tax structure to give relief to the common man, reorganisation of the public sector, ensuring for the working class a minimum need-based wage, enforcement of effective and far-reaching land reforms and the prescription of an adequate minimum wage for agricultural labour.

The party wants removal of inter-State conflicts and the vesting of greater power and authority on the States. All regions and States should be evenly developed. Compact tribal areas should be demarcated to form separate States or autonomous regions according to their size. Muslims have to be guaranteed full protection of their specific cultural, social and religious rights.

The introduction of Hindi as the official language should be done in a gradual manner, based upon the consent of the non-Hindi-speaking States.

While recognising the importance of improving the quality and breeds of cattle, the party does not support the demand for a total ban on cow-slaughter. It wants the removal of the "inhibitions, nuances and anti-democratic and obsolete practices of the old imperial army" in the defence forces.

In the sphere of foreign policy, the party generally supports the Government policy but is critical of its "vacillations and compromises under the pressure of Anglo-American blackmail." It calls for full support to the Viet Name people and effective action to stop U.S. bombing of North Viet Nam. It urges diplomatic recognition to East Germany and the continuance of efforts to reach a lasting accord with Pakistan on the basis of making the existing cease-fire line in Kashmir the international boundary with mutually agreed adjustments. Despite the continued hostile attitude of China, it wants to explore all avenues for a peaceful settlement with China either directly or through the good offices of friendly neutral powers and proposes a no-war pact with that country.

## DRAVIDA MUNNETRA KAZHAGAM

(Arivaham, Suryanaryana Chetty Street, Royapuram, Madras.)

General Secretary : C. N. Annadurai.

#### AIMS

The election manifesto of the Dravida Munnetra Kazhagam, which is instrumental in uniting the Opposition forces to fight the Congress in the 1967 General Elections, reiterates the party's determination to work for the establishment of a Dravida Nad within the Indian Union and to preserve the language and culture of the South.

The party will work for establishing closer contacts among the four southern States of Tamil

Nad, Andhra, Kerala and Mysore, which have cultural and linguistic affinities. It will oppose any move by any party to dominate other parties in the name of national integration.

The manifesto promises to strive for the protection of the rights and privileges of the States and for uniform economic development.

The party will try to amend the Constitution to change the present allocation of powers between the Centre and the States with a view to giving greater powers to the States.

The manifesto also promises land to the tiller, the formation of a land army to step up food production, debt relief to farmers and measures to check the commodity price spiral.

The party stands committed to the nationalisation of banks, bus transport and cinema theatres.

It also gives a promise to reduce the tax burden.

In the General Election the party secured an absolute majority and replaced the Congress by forming its own Ministry in the State.

## INDIAN NATIONAL CONGRESS

(7, Jantar Mantar Road, New Delhi.)

President : K. Kamaraj.

General Secretaries : T. Manan, Sadiq Ali.

Treasurer : Atulya Ghosh.

Working Committee : D. Sanjivayya, Smt. Indira Gandhi, Atulya Ghosh, Morarji Desai, Jagjivan Ram, S. K. Patil, K. Kamaraj, Mohanlal Sukhadia, Y. B. Chavan, Ram Subhag Singh, Gulzarilal Nanda, S. Nijalingappa, Sadiq Ali, Fakhruddinali Ahmed, Biju Patnaik, Darbara Singh and T. Manan.

Central Parliamentary Board : Smt. Indira Gandhi, Jagjivan Ram, K. Kamaraj, Morarji Desai, S. K. Patil, Y. B. Chavan, Fakhruddinali Ahmed, Atulya Ghosh.

Central Disciplinary Action Committee : Morarji Desai, Jagjivan Ram, S. K. Patil, Atulya Ghosh, Gulzarilal Nanda.

Leader, Congress Party, Parliament : Smt. Indira Gandhi.

Deputy Leaders, Congress Party, Parliament : K. Hanumanthaiya (Lok Sabha); S. N. Mishra (Rajya Sabha).

Secretaries : Chandrasekhar, Jagannath Pahadia.

Treasurer : Kamalnayan Bajaj.

Total membership of Party in country : (1965): Primary : 1,73,40,000; Active : 332,000.

The Indian National Congress includes the following bodies :

The All-India Congress Committee, the Working Committee, Pradesh or Territorial Congress Committees, District or City Congress Committees, Block Congress Committees and Committees subordinate to the Block Congress Committees to be determined by the Pradesh Congress concerned.

There are 20 Pradesh Congress Committees :

Andhra, Assam, Bihar, Bombay, Delhi, Gujarat, Haryana, Himachal, Jammu & Kashmir,

Kerala, Madhya Pradesh, Maharashtra, Mysore, Punjab, Rajasthan, Tamilnad, Utkal, Uttar Pradesh, West Bengal and Tripura.

There are five Territorial Congress Committees : Goa, Manipur, Nagaland, NEFA and Pondicherry.

The A.I.C.C. also has on it representatives of allied institutions and organizations.

#### AIMS AND OBJECTS

The ideology, outlook and policy may be described as follows :

The object of the Indian National Congress is the well-being and advancement of the people of India and the establishment in India by peaceful and constitutional means of a Socialist State based on Parliamentary Democracy in which there is equality of opportunity and of political, economic and social rights, aiming at world peace and fellowship.

The provision of the basic needs of food, clothing and shelter, and of opportunity for cultural growth for all people.

With a view to achieving the above objects planning should take place with a view to the establishment of a socialistic pattern of society where the principal means of production are under social ownership, or control and there is equitable distribution of national wealth.

Full employment should be achieved in ten years.

The State should initiate and operate large-scale schemes, providing services such as power, transport; have over-all control of resources, social purposes and trends; maintain strategic controls; prevent private trusts and cartels; maintain standards of labour and production; the public sector must progressively play a greater part particularly in the establishment of basic industries; the private sector should function in terms of the national plan.

Organization of industry, commerce, agriculture on a co-operative basis.

Participation of workers in management of industry.

Perspective planning; flexible short-term plans in the context of a long-term plan.

Backward areas and regions should be specially helped to develop themselves.

The per capita income should be doubled in fifteen years.

Belief in a secular State; all citizens to have equal rights; removal of barriers which divide people on the basis of religion, caste, class or region.

#### Land Reform

Abolition of old and out-dated agrarian systems of tenure; security of tenure and fair rents for tenants and tillers of the soil.

Land reform should be effected quickly, agricultural prices stabilized at a reasonable level and facilities for rural credit greatly enlarged.

There should be a ceiling on holdings.

Co-operative farming; the village as the unit of co-operative management.

Local administration through Panchayats.

Promotion of small-scale and cottage industries as supplier of consumer goods and source of employment; organization of cottage industries in industrial co-operatives.

State trading should be undertaken whenever the balance of advantages lies in favour of such a course.

Control of distribution is essential in times of scarcity.

Redirection of public expenditure, imposition of estate duties and of tax on wealth and spending for the removal of inequalities and the provision of resources for the Second Plan.

There should be a reasonable relationship between maximum and minimum incomes.

Better housing for workers.

Effective machinery to commend good work and condemn bad work in the public services.

Summary method to deal with corruption.

#### Education

Basic education will provide the future pattern of primary as well as secondary education. Primary Schools will be converted to the Basic type in a well-planned manner within ten years.

Multi-purpose schools will be established.

Manual work as part of curriculum of higher education; no degree or diploma without manual work.

The medium of instruction at the primary stage must be the mother tongue. Where the mother tongue of a child is not identical with the regional language instruction in the mother

tongue should be made available, provided there is a reasonable number of persons demanding such instruction.

At the secondary stage instruction should ordinarily be in the regional language, though other languages could be used if there is a large enough demand.

At the university stage, the regional language should be the medium, though Hindi and even English could be used as this will facilitate inter-provincial cultural intercourse.

In the teaching of scientific and technical subjects the transition from English to Hindi or the regional language should be gradual.

Hindi should be a compulsory second language at the Secondary stage.

The study of English should be taken up at the secondary school stage and continued at the university.

Progressively, examinations for the all-India services should be held in English, Hindi and the regional languages. Candidates who have chosen Hindi or a regional language should pass separately in English.

Successful non-Hindi candidates should take a test in Hindi at an early stage.

Hindi Prachar Sabhas in the headquarters of every Taluka in the south.

It is desirable for people in Hindi-speaking areas to learn at least one regional language.

Proper representation to minorities in legislatures and other public bodies.

Social and legal disabilities hindering the progress of women should be removed and women should be placed on a footing of equality in the matter of marriage, property, inheritance and divorce through a series of Hindu law reform bills.

Formation of regions within a State may be necessary for the full development of a language or culture.

On the whole, it is best not to have relatively small units.

The Congress is committed to prohibition.

#### Foreign Policy

Independent line in foreign policy; friendly relations with all countries.

India's relations with foreign countries will be governed by the Panch Shila. They should also be the basis of the relations between all nations.

Regional military pacts which happen to serve specific interests of the Great Powers will not promote the cause of peace.

India will not be aligned to any power bloc, and will not take part in other people's wars.

China must be admitted to the United Nations. Membership should, in fact, be universal.

In general, people under colonial rule should be free.

Racialism should end.

#### Congress Unit in Kashmir

The Kashmir National Conference had been functioning on the same lines as that of the Congress. Many people in Kashmir and the rest of the country had expressed a strong desire that the National Conference should become an integral part of the Congress. In the plenary session this decision was adopted and moved, and initial work for the establishment of a Congress Unit in Kashmir started from January 26, 1965.

#### Jaipur Session

The 71st Plenary session of the Indian National Congress was held in Jaipur from 9 to 13th Feb. 1966.

**Condolence:** Condolence resolutions expressing deep sense of sorrow and grief at the death of Shri Lal Bahadur Shastri and other prominent leaders and congressman were moved from the Chair and passed.

In this session the A.I.C.C. has reviewed the short-fall of agricultural production and impressed the necessity of becoming self-sufficient in the matter of foodgrains. It has given highest priority to agricultural programmes, but next to defence of the country.

#### ELECTION MANIFESTO

India under the leadership of the Indian National Congress has made a choice in favour of an open and democratic society. For this, the Congress emphasises its central concept of political emancipation and has decided to bring about through the open and democratic process the social and economic changes our society needs.

Electricity in industry and agriculture is revolutionizing the life of the people who are enjoying it. The Congress aim is to take it to every village. It is also laying the foundation for the use of atomic energy for constructive and peaceful purposes. Establishment of the panchayat institutions is a revolutionary step promoting mass participation in the administrative process and the economic reconstruction of the country at the village level.

The set-backs to progress brought about by the Chinese invasion, aggression by Pakistan, unprecedented droughts in the country, and aftermaths of the struggle against Pakistani aggression, make it all the more necessary that the coming years should see increased and redoubled effort to speed up the full development of our economy. During the coming few years it will be the aim of the Congress to intensify its efforts for a self-reliant and progressive economy. The Indian National Congress hopes that technological self-reliance will be the key-note of the coming years.

The Congress calls on the Government to so alter the conditions of work and service as to attract our best men from whichever part of the world they may be working now.

While recognising that during the initial stage of economic development external assistance plays an important role, it is essential to reduce the period to the minimum and to diminish speedily the amount and range of external assistance. The Indian National Congress realises that the spirit of Swadeshi needs to be urgently strengthened in the new context of economic and industrial development. A comprehensive programme of decentralised industry in the rural area implemented with drive, and a sense of paramount urgency can make a large contribution to the vast problem of unemployment.

The earliest attainment of self-sufficiency in food grains should be the main moving force of the agricultural programme of the country. The Indian National Congress attaches the highest importance to the efficient administration of agricultural research and extension. The closest link should be developed between agriculture and research. The Government should also take early steps for providing insurance of crops and cattle against natural and other calamities.

It is also necessary that certain amenities are made available in rural areas to landless labour as also others who hold small holdings. House sites of suitable size should be provided by land acquisition to all such families as require them free of cost in some cases, and at concessional rates to others.

Drinking water should be provided in all rural areas by a national programme of wells, conservation of water and utilisation of scientific methods.

An extensive road building programme which will connect villages to the main roads will, apart from providing part employment, promote rural development.

India has 21 per cent of her land under forest. These forests possess abundant resources of timber, wild fruits, medicinal herbs and the game. With the assistance of science and technology and with a proper organisation of the forests India can add to the national product substantially in a matter of years.

Abolish social and economic oppression of one caste by another. Make such oppression punishable by law. Strengthen secular basis of the State.

Separate judiciary from the executive. Ensure simpler, cheaper and speedier justice within reach of the common man. Provide free legal aid for poorer sections of population.

Reorganise taxation system and base it on principle of capacity to bear burden. Introduce ceiling on profits, and incomes and graded tax system in industry, trade and agriculture.

Introduce state-trading in essential commodities like foodgrains, cloth, etc. and supply them to people at reasonable prices.

National minimum wage should be fixed and workers should be assisted in securing fair wages which should be above the minimum. Sliding scale of D.A., bonus, gratuity and holidays with pay.

Enlarge and liberalise social security measures, such as provision against unemployment, ill-health and old age. Provide housing facilities at cheap rent.

Guarantee full trade union and democratic rights.

Break concentration of land by abolishing all forms of landlordism, by imposing effective ceilings on landholdings and distributing surplus land to agricultural labourers and poor peasants free of cost.

All land reform measures be implemented with the help of popular committees of accredited

representatives of peasants and agricultural labourers. Financial and technical aid also be distributed in a similar way.

Introduce graded land tax based on income, exempting all uneconomic holdings from tax.

Organise multipurpose cooperatives to provide cheap credit, seed, manure, pesticides, etc. to peasants and ensure remunerative prices for their products. Provide cheap irrigation facilities; start agro-industries in the countryside.

Ensure adequate wages and living conditions for agricultural labourers.

### 1967 ELECTION MANIFESTO

The C.P.I. stands for the elimination of the Congress rule.

The manifesto explains the differences between C.P.I. and its Marxist counterpart as well as certain other opposition parties.

It stands for the total elimination of foreign monopolies. All industrial concerns, financial and business enterprises owned by foreign monopolies should, therefore, be nationalised. It stands for the closing down of speculative markets and exchanges, nationalisation of banks, a "people's plan" to replace the Fourth Plan, stoppage of payment of compensation to big landlords and of privy purses, overhauling of the tax structure to give relief to the common man, reorganisation of the public sector, ensuring for the working class a minimum need-based wage, enforcement of effective and far-reaching land reforms and the prescription of an adequate minimum wage for agricultural labour.

The party wants removal of inter-State conflicts and the vesting of greater power and authority on the States. All regions and States should be evenly developed. Compact tribal areas should be demarcated to form separate States or autonomous regions according to their size. Muslims have to be guaranteed full protection of their specific cultural, social and religious rights.

The introduction of Hindi as the official language should be done in a gradual manner, based upon the consent of the non-Hindi-speaking States.

While recognising the importance of improving the quality and breeds of cattle, the party does not support the demand for a total ban on cow-slaughter. It wants the removal of the "inhibitions, nuances and anti-democratic and obsolete practices of the old imperial army" in the defence forces.

In the sphere of foreign policy, the party generally supports the Government policy but is critical of its "vacillations and compromises under the pressure of Anglo-American blackmail." It calls for full support to the Viet Name people and effective action to stop U.S. bombing of North Viet Nam. The A.I.C.C. also has on it representatives of allied institutions and organizations.

### AIMS AND OBJECTS

The ideology, outlook and policy may be described as follows :

The object of the Indian National Congress is the well-being and advancement of the people of India and the establishment in India by peaceful and constitutional means of a Socialist State based on Parliamentary Democracy in which there is equality of opportunity and of political, economic and social rights, aiming at world peace and fellowship.

# THE REPUBLICAN PARTY OF INDIA

(Gandhi Road, Chanda.)

**President :** Dadasaheb Gaikwad, M.P.

**General Secretary,** B. D. Khobragade, M.P.

The main aims and objects of the Party are to realise the aims and objects set out in the preamble to the Indian Constitution, namely :

The equality of all persons; the right of self-development; freedom of religion; and economic and political freedom; equality of opportunity with the proviso that those who had none in the past should have priority; freedom from exploitation of man by man, class by class; nation by nation; the parliamentary system of government.

For the 1967 Election, it decided to have local electoral adjustments with opposition parties. It was also decided to put up 100 candidates for the Maharashtra Assembly and 15 for the Lok Sabha, out of which nine candidates for the Assembly and two for Lok Sabha from Bombay.

## REVOLUTIONARY SOCIALIST PARTY

(780, Ballimaran, Delhi 6.)

**General Secretary,** Tridib Kumar Chaudhuri, M.P.

The party is a Marxist Leninist Party and relies on mass and class action. It is organized on the principle of democratic centralism. But it is opposed to subservience to the foreign policy of Russia or China.

It believes in the redistribution of land with ceilings, joint cooperative farming and mechanization. It believes in the policy of heavy industrialization, nationalization of all basic industries and of all large-scale organized indus-

tries, with private sector limited to small and cottage industries only and their organization on cooperative lines. It also advocates the introduction of appropriate democratic devices for workers' and consumers' control over publicly owned industries, enterprises and financial institutions. The party also favours balanced regional economic development. On China, it condemns the Chinese aggression and supports the Colombo Proposals as a basis for negotiations between the two countries.

According to the 1967 election manifesto, the party stands for changing the Constitution to

ensure effective political power to the elected representatives and annulment of the emergency, of the Defence of India Rules and the Preventive Detention Act and amend what it called 'other repressive atrocities.'

It wants 'regional autonomy' to tribal areas, nationalisation of basic and key industries, overhauling of the planning organisation and annulment of rural indebtedness.

The party has branches in Assam, West Bengal, Bihar, Uttar Pradesh, Delhi, Rajasthan, Maharashtra, Madras and Kerala.

## SAMYUKTA SOCIALIST PARTY

**Central Office :** Kendra Karyalaya,  
179, South Avenue, New Delhi 11.

**Office Bearers :** Chairman : S. M. Joshi ;  
General Secretary : Ramsevak Yadav ; Treasurer :  
M. R. Sahrawat.

### Aims and Objects

To achieve, by democratic and peaceful means, a socialist society, free from social, political and economic exploitation of man by man and of nation by nation.

The Party will organise, guide and lead peaceful revolutionary class struggles, mass movements and civil disobedience; promote constructive efforts; and also use parliamentary

methods to secure political power in order to eliminate all forms of injustice and feudal-capitalist exploitation.

The Party is active on the trade union front through the Hind Mazdoor Panchayat, a central organisation of trade unions. On the youth front, it works through the Samajwadi Yuva Jan Sabha, while a women's front is being organised through the Samajwadi Mahila Sabha. The Hind Kisan Panchayat organises the small farmers and agricultural labourers.

The abolition of land revenue in whatever form it exists, democratisation of the district adminis-

tration, greater use of State languages in administration and the constitution of an anti-corruption commission with the right of probe not only into the conduct of Government officials but also of Ministers, legislators and political leaders, are some of the suggestions contained in the draft election manifesto of the Samyukta Socialist Party for the 1967 General Elections.

It also emphasises that while the Minister must lay down the policy, the Government officer must implement it thereby doing away with the prevailing "confusion" of their powers and positions.

## SHIROMANI AKALI DAL

Broadly speaking there are three groups among the Sikhs. One group is the main body of the Shiromani Akali Dal. It is in favour of maintaining the separate identity of the Sikh community and the formation of a Punjabi Suba.

At present there are two rival groups of the Akali Dal, one the Master Tara Singh group and the Sant Fateh Singh group.

**President :** Giani Bhupinder Singh.

**Gen. Secretary :** Sardar Atma Singh.

"The Shiromani Akali Dal held its 16th All India Akali conference at Babbar Akali Nagar, Jullundur on 26th and 27th February, 1966 to give a lead to the Sikhs on Punjabi Suba issue. Giani Bhupinder Singh President of S. A. Dal declared that existing Punjabi region of the state of Punjab be carved out into Punjabi Suba and launched on a programme of direct action from Anandpur Sahib from 6th March, 1966, and the direct action was launched by defacing the

Hindi sign boards and mile stones in the Punjabi Region as a token direct action.

The Congress working Committee under the Presidentship of K. Kamaraj decided on March 9, 1966 through a resolution that Punjabi Suba be carved out of the State of Punjab.

Soon after the Parliamentary Committee with S. Hukam Singh, Speaker, Lok Sabha, as Chairman recommended to the Union Government that Punjabi Region of the state of Punjab with minor modifications be made a Punjabi Suba. Thereupon the Union Government accepted the Congress working Committees resolution as well as the report of the Parliamentary sub Committee on Punjabi Suba but appointed a Boundary Commission with Justice Shah of Supreme Court of India as chairman with two other members to submit its report by end of May, 1966. The Shiromani Akali Dal boycotted this commission on the ground that it had no faith on such commissions appointed by the Government. The Boundary commission recommended

with minor alterations the existing Punjab region be declared Punjabi Suba and Hindi region be divided into state of Haryana and Himachal Pradesh.

The Union Government accepted the report of Boundary Commission except in case of Chandigarh and Kharar Tehsil. It decided to make Chandigarh into a Union territory and Punjabi speaking area of Kharar was merged with Punjabi Suba. The Shiromani Akali Dal turned down this decision of the Union Government and declared that the S. A. D. will have Chandigarh in the Punjabi Suba and as a capital of this new State. It also declared that either Union Government or the Haryana has no claim over Chandigarh as it is a part and parcel of the Punjabi Region.

The struggle for inclusion of Chandigarh in Punjabi Suba is going on although the Punjabi Suba and Haryana Prant have already come into force.

The Shiromani Akali Dal (Master Tara Singh group) in its election manifesto has demanded the creation of a Sikh homeland within the Indian Union.

It demanded that all Sikh areas "deliberately" cut off and not included in the new Punjab, must now be returned to it so as to form a well-knit administrative unit to be the Sikh homeland. Such a State should be granted an autonomous status on the analogy of the special position given to Jammu and Kashmir before 1950.

The manifesto said the Akali Dal had come to the inescapable conclusion that a section of "political Hindus" holding key power, had a firm plan of "degrading and liquidating" Sikhs from the mainstream of free India. The boundaries of the new Punjab had been determined by the Central Government in a manner to eventually relegate and contain Sikhs in a "narrow

under-developed and suppressed reserved area."

"The Sikhs resolve and proclaim their determination to resist through all legitimate means, all such attempts to devalue and liquidate them in free India," it added.

The manifesto further said that after 20 years of independence the Congress had reduced the country, Punjab and the Sikh people as well as other minorities to a "state of ruin and despondency."

It called upon the Sikhs and other patriotic elements in the Punjab to vote for the Akali candidates in the coming election. The Dal was the only organisation representing the majority of true Punjabis and capable of forming an alternative government.

According to the manifesto, the Akali Dal was prepared to co-operate and associate with all

parties and associations at the Centre and in the States who were democratic, patriotic and sympathetic towards its aims and objectives.

The Dal, among other things stood for building up a strong defence potential, including nuclear weapons, so as to defend and preserve the independence and prestige of India and also to regain areas lost since August 15, 1947.

It aspired for a free and self-regulated access to and control of all Sikh sacred shrines in the west and east of India from where the Sikhs had been driven out in the recent past. The Dal was pledged to help destroy caste distinctions, social inequalities and curtailment of human freedom which were contrary to the teachings of the great Gurus as well as the conscience of man. It favoured self-owned and self-cultivated viable agricultural farms in the Punjab run with generous State aid on modern lines.

## SWATANTRA PARTY

( 143, Mahatma Gandhi Road, Bombay 1. )

**President :** Prof. N. G. Ranga.

**Vice-Presidents :** K. M. Munshi, Prof. M. Ruthnaswamy, H. H. Maharani Gayatri Devi of Jaipur.

**General Secretary :** M. R. Masani.

**Treasurers :** Sir Homi Mody, Dr. R. C. Cooper, C. Rai; **Joint Secy.,** N. Dandekar.

The Swatantra Party was established in Bombay on August 1 and 2, 1959.

The Swatantra Party is pledged to social justice and equality of opportunity for all people without distinction of religion, caste, occupation or political affiliation.

### Manifesto for 1967 General Elections

Governments formed or backed by the Swatantra Party will:

Pull the economy out of the ditch in which it has been landed by those in office during the past twenty years.

Cut Governmental expenditure.

Cut taxes, direct and indirect, and abolish land revenue.

Check rising prices by increasing production in field and factory and provide a stable and honest rupee.

Help the farmer to grow enough to feed the people.

Free agriculture, trade and industry, as also panchayats and cooperative societies, from the fetters of needless State control and interference.

End Permit-Quota-Licence Raj and thereby remove a major source of corruption and favouritism.

Dissolve the Planning Commission and scrap the disastrous Fourth Plan.

End all monopolies, whether in the State or free sector.

Restore fair and free competition in the service of the consumer.

Give back to the people what is theirs.

Restore respect for India in the eyes of the world.

Ensure free and compulsory elementary education.

Provide a better life to the people here and now.

Make today's prosperity the foundation of tomorrow's growth.

The Party's Programme of Ordered Progress :

### THE COMMON MAN

The Swatantra Party stands, first and foremost, for the common man and for provision of his food, drinking water, clothing and shelter

under hygienic conditions through opportunities of gainful employment as the primary concern of Government.

The Swatantra Party believes in building a democracy in which the inviolability of personal freedom and of individual possessions and the incentives to individual effort form the basis and where economic power, as Gandhiji had envisaged, is decentralised and ownership is as widely diffused as possible. In such a society, the self-employed man, whether he is a farmer, artisan, shop-keeper or professional, has the fullest opportunity to thrive and grow without any arbitrary restrictions.

The entire economy has as its foundation the provision of the infrastructure, that is, of certain essential services which have been badly neglected by the Congress Government during the past twelve years, such as the supply of water, electric power, highways and village roads, railways, waterways, ports, post, telegraphs and telephones and the provision of hygienic conditions in rural areas. These objectives are large enough to stretch the financial resources and managerial capacity of Government to the utmost and to give a sense of satisfaction to the most dedicated Administration.

The Party will uphold the principle that the welfare of citizens is too sacred to be sacrificed to any dogma, theory or policy.

### AGRICULTURE

This is India's Basic Industry. It can provide enough food for our people, raw materials for our industry and full employment. It is the foundation on which India's prosperity can be built. It should therefore be given very high priority. This will involve *inter alia* the repeal of the 17th Amendment, the acceptance of the right of tenants to a fair rent and security of tenure, the abolition of land revenue, the adequate provision of essential requirements such as credit, water, fertiliser, pesticides, seed and electric power, the provision of increasing incentives to the farmer, the acceptance of his right to the best price he can get for his produce in the free market and guaranteed floor price. The Party stands for the creation of harmonious cooperation among owners, tenants, workers and all others concerned in agricultural production.

The Swatantra Party stands for the removal of all compulsory procurement and all zonal and other barriers to the free movement of agricultural products throughout the country.

The Party will undertake to expand irrigation of cultivable land by a scheme of digging wells whose ownership will be passed on to the *kisans* on payment by instalments spread over a period of years.

The Party will strive for the formation of an All-India Famine Insurance Fund to strengthen the efforts of States affected from time to time by natural calamities.

A considerable section of India's working population consists of landless agricultural labourers. Unlike industrial workers, they are unorganised and have been the worst sufferers due to under-employment, rising prices and the heavy incidence of taxation on articles of common consumption. The Swatantra Party stands for their protection by insisting upon:

Just and adequate protection of those permanently employed in agriculture and all agricultural labourers; a fair deal for the farmers who employ them; growing opportunities for alternative employment in the countryside through land improvement schemes such as village road-building, drainage, soil conservation and reclamation and small scale rural industries; a drastic reduction in the incidence of indirect taxation and arresting the rising cost of living; provision of free house-sites and drinking water facilities; provision of subsidised building material for their homes; credit facilities for purchasing livestock and poultry; abolition of hereditary debts and maximum relief from agricultural indebtedness in whatever form.

Large size Government farms, which are a source of recurring loss, and other cultivable Government lands being parcelled out in small holdings and let out to landless agricultural workers.

### INDUSTRY AND TRADE

The immediate need is to change the stagnant and deteriorating situation by restoring vigour to the investment market and fostering productive investment by reducing taxation, progressively abolishing controls and providing incentives so that the investor, manager and worker may cooperate and increase production and productivity and share in the gains.

The Swatantra Party stands for a more balanced development in which small and medium labour-intensive industries have priority over capital-intensive industries with low and slow returns which have so far been favoured.

Until such time as they are able to give a reasonable return on the people's hard earned savings, there should be no further wasteful investment of the tax-payers' money in Government Sector industries which have failed to function effectively. Bokaro must be halted in favour of more fertiliser plants.

The Swatantra Party is opposed to all monopoly, whether in the State or free sector, and will seek to re-establish competition, wherever possible, for the benefit of the consumer. Monopolies, where tolerated, will be subject to essential control.

Where, owing to temporary scarcity of certain vital resources, regulation becomes inevitable, there should be a quasi-judicial authority to indicate the necessary priorities and allocations.

**Labour:** The Swatantra Party stands for a fair deal to labour, both industrial and agricultural. The Party accepts the workers' right to organise themselves in order to improve their conditions of life and work. Strong and responsible trade unions managed by the workers themselves and not, as at present, play-things in the hands of political parties, are an integral part of a democratic industrial order. The Party stands for the workers' right to collective bargaining involving, where necessary, the right to withdraw their labour.

The Swatantra Party stands for closer association of the workers and the management of industries, so that a spirit of partnership may develop among all those engaged in production.

The Party stands for a good wage for a good day's work. Encouragement should be given to "progress sharing" through an increase in earnings of employees alongside of an increase in productivity without detriment to the overall aim of national prosperity through the reduction of costs.

**Planning:** The Swatantra Party believes in democratic planning by persuasion such as is practised in countries like France, Britain and the Scandinavian countries, and is opposed to the Soviet-type coercive planning which has failed so miserably here and wherever it has been tried.

The proposed Fourth Plan as it stands, which shares all the defects of the Second and Third Plans, which have brought this country to the brink of bankruptcy, should be scrapped.

The Swatantra Party will dissolve the Planning Commission which has become in effect a parallel Government unknown to the Constitution and which has shown its unfitness for its task and will replace it with genuinely expert advisory bodies with which Agriculture, Industry, Labour and other interests would also be associated. The principal objective of such planning bodies should be to help Government to plan its own business.

### FISCAL AND MONETARY POLICY

The primary need is to provide an Honest Rupee and stable prices through: (a) the abandonment of deficit finance and other inflationary policies and practices, including extravagant and wasteful domestic borrowing, (b) a drastic cut in the wasteful bureaucratic expenditure of the Union and State Governments; and (c) a substantial reduction in the incidence of direct and indirect taxes.

**Banks:** The Swatantra Party is opposed to the nationalisation of banks contemplated by the Congress Party which is utterly irrelevant to the country's problems and would retard development besides being fatal to monetary stability, security and savings by placing the savings of lakhs of small depositors at the mercy of a Government seeking to lay its hands on all available resources.

**Foreign Loans:** The Swatantra Party's repeated warnings against extravagant and wasteful borrowings from foreign Governments have proved fully justified. No more Government-to-Government loans should be taken except for the purpose of strengthening and expanding the infrastructure. The flow of foreign private equity capital coming into the country at its own risk should be encouraged.

**Gold Control:** Gold control should be entirely abolished.

### THE CONSTITUTION AND PUBLIC ADMINISTRATION

The Swatantra Party deplores the repeated Amendments to the country's Constitution, which have resulted in a serious erosion of the fundamental rights of the citizen and pledges itself to restore these rights in the Constitution to their original form at the earliest possible opportunity.

The Swatantra Party would end the State of Emergency which has been needlessly prolonged and which has been misused by the Congress Government for party purposes. Full civil liberties would be restored immediately.

All legislation will be such as respects the rights of the citizen to seek redress in the courts on disputed questions of law.

The Party will give the country clean, honest, impartial and efficient administration. It will ensure that there is no interference by politicians, either of the ruling Party or any other Party, in the day-to-day administration, nor any by-passing or interfering with the independence of the Union and State Public Service Commissions.

The highest priority will be attached to the restoration of law and order, the first duty of the State being the protection of life and property. The Party is of the view that whenever Government fails to provide this, just compensation shall be paid to the victims.

Justice should be speedy and inexpensive.

In order to check corruption and the arbitrary infringement of the rights of the citizens, the Party will continue to press for the establishment of an independent authority at the Centre and in the States on the lines of the Ombudsman in Scandinavian countries to investigate into the grievances of citizens and any administrative vagaries or injustices and to give due redress and other suitable authority for justice in regard to nonjusticiable executive decisions.

The Party stands for the satisfactory rehabilitation of ex-servicemen and their families.

The Party stands for a revision of the scales of pensions paid to retired low-grade government servants in line with the sharp rise in the cost of living.

**Electoral Reform:** The Swatantra Party stands for a reform of the electoral system which would: (a) reduce the influence of money power and the expenses to be incurred by candidates; and (b) evolve a system such as would result in fairly representing the will of the electorate in Parliament and State Legislatures and reducing, if not ending, the distortion that is to be found in the composition of the present Lok Sabha and many State Assemblies.

### INTERNATIONAL RELATIONS AND DEFENCE

The Swatantra Party regards enlightened national self-interest as well as progress towards world unity as the bases of a sound foreign policy.

The Party also stands for a more imaginative policy towards the peoples on our borders so as to help the defence of the country as a whole and strengthen the bonds between us.

The Party stands pledged to a firm and vigilant policy in dealing with Communist China and for active steps to end its aggression and to reoccupy Indian territory in its possession at the earliest possible moment. The Party stands for the liberation of Tibet and for the recognition of the Dalai Lama as the Head of the Government of Tibet in exile.

While the Swatantra Party believes that normal and friendly relations between India and Pakistan are required in the interest and security of the entire subcontinent, it is of the view that Pakistani aggression last year has deprived Pakistan of whatever *locus standi* it might have had in regard to the Kashmir problem.

### EDUCATION

In order to arrest the prevailing disintegration and the unfortunate spirit of cynicism and disorder that is sweeping the ranks of students and youth the Party will: (a) introduce in education a spiritual element alongside of the humanities and sciences in order to provide an adequate background of human values and national unity for the citizen of the future; (b) provide free scope and encouragement to voluntary agencies to impart moral and religious instruction to the young without forcing any such instruction on sections belonging to other denominations.

The Party stands for: (a) raising the quality of education in primary schools which should be the direct responsibility of State Governments; (b) raising the status and remuneration of the teaching profession; (c) the rejection of measures like the nationalisation of textbooks calculated to indoctrinate the younger generation; (d) the vindication of the Fundamental Right of the citizen to educate his children according to his choice in an atmosphere untrammelled by official directives; and (e) the autonomy of Universities and other educational institutions.

This is the age of Science and Technology. It is, therefore essential to make the people work and science-minded and technologically oriented, starting at the very first rung of the educational ladder and going right through to the technological application of science to agriculture and industry. To that end, the Swatantra Party would equip schools and educational institutions with adequate laboratory and workshop facilities.

### RELIGION

The Swatantra Party believes that, while every citizen should be free to choose his religious beliefs and be entitled to an unrestricted exercise of the right to religious freedom guaranteed by the Constitution, religion is of vital concern to the State as it provides a dynamic force for strengthening moral and spiritual values which furnish the motive and the sanction for right conduct even more than any law or regulation of the State.

The Swatantra Party will, therefore, do everything possible to restore religion to its legitimate place in life and in particular: (a) ensure respect for all communities in regard to their religious institutions and practices; (b) secure for each religion the autonomous management and the full benefit of its endowed and other properties without interference from Government, and (c) make incomes and properties of and donations to religious institutions and charities, tax free.

**Minorities and Backward Classes:** (a) The Party will more faithfully and effectively carry out the provisions of the Constitution for the protection of the rights and interests of Muslims, Christians, Sikhs and other minorities including linguistic minorities, and of those who work under economic and social handicaps such as Harijans, Adivasis and other Backward Classes, who shall be listed, irrespective of their religion. The total eradication of untouchability will be actively pursued.

(b) The Party will not look upon an association for the protection of the rights of any class or community as a communal organisation to be discouraged or banned.

Despite warnings, the Congress Party has persisted in following policies which have resulted in disintegrating tendencies. Linguism is now becoming a separatist force and a protective cover for those in power in the States to reduce all minorities to the position of second class citizens. The Swatantra Party will take steps to halt this deterioration.

The Party stands for the establishment of permanent quasi-judicial commissions for minority affairs at the Centre and in the States.

### MEDIA OF MASS COMMUNICATION

The Swatantra Party is opposed to all attempts at the establishment of monopoly or official control over the various media of mass communications. The Party is of the view that the operation of Broadcasting and Television Services and the Films Division should be entrusted to autonomous corporations and that other radio, television film enterprises should be allowed to enter into competition with these statutory authorities.

The Party will do everything possible to sustain the independence of the Press against all attempts to bring it under the influence of the Party in office.

## GENERAL ELECTIONS (1967)

India, the second most populous country in the world went to the polls on February 15, 1967 for the fourth time after she attained independence on August 15, 1947. In this operation 250,681,530 people were entitled to vote as against 216 million in the 1962 election. The total electorate exceeds the total population of two of the world's biggest countries—the United States and the Soviet Union. Goa, Daman and Diu and Dadra and Nagar Haveli, the former Portuguese Colonies participated in the elections. For the first time a representative was elected to the Lok Sabha from Andaman and Nicobar Islands and Laccadive, Minicoy and Amindivi Islands. Jammu and Kashmir now directly elected its representatives to the Lok Sabha. Thus the enfranchised area has been extended to almost every part of India except North-East Frontier Agency which still has a nominated member in the Parliament.

### ELECTION PROGRAMME

The Election Commission notified on Jan. 12, 1967 the programme for election to parliamentary and assembly constituencies in all the States and Union Territories.

The dates for filing nominations were from January 13 to 20, 1967 and for scrutiny of nominations January 21, 1967. The 1st date for withdrawals of candidature was January 23.

The only exception was Kerala where the dates for filing nominations were from January 16 to 23, 1967 and for scrutiny of nominations January 24. The last date for withdrawals of candidature was January 27.

The dates of poll in the various States and Union Territories were as below :

*Andhra Pradesh* : February 15, 18 and 21, 1967; *Assam* : February 17 and 21, 1967; *Bihar* : February 15, 17, 19 and 21, 1967; *Gujarat* : February 15, 18 and 21, 1967; *Haryana* : February 19, 1967; *Jammu & Kashmir* : February 21, 1967; *Kerala* : February 20, 1967; *Madhya Pradesh* : February 16, 17 and 20, 1967; *Maharashtra* : February 15, 18 and 21, 1967; *Madras* : February 15, 18 and 21, 1967; *Mysore* : February 15 and 19, 1967; *Orissa* : February 21, 1967; *Punjab* : February 19, 1967; *Rajasthan* : February 15, 18 and 20, 1967; *Uttar Pradesh* : February 15, 17, 19 and 21, 1967; *West Bengal* : February 19, 1967; *Delhi* : February 19, 1967; *Himachal Pradesh* : February 18 and 21, 1967; *Manipur* : February 15, 20, 24 and 28, 1967; *Tripura* : February 18, 1967.

In the following State and Union Territories elections were held only for the parliamentary constituency/ies on the dates indicated against each :

*Nagaland* : February 16, 17, 18, 20 and 21, 1967; *Andaman & Nicobar Islands* : February 18, 1967; *Chandigarh* : February 19, 1967; *Dadra & Nagar Haveli* : February 21, 1967; *Goa, Daman & Diu* : March 28, 1967; *Pondicherry* : February 26, 1967; *Laccadive, Minicoy & Amindivi & Islands* : February 18, 1967.

Election for the assembly constituencies was completed before February 25, 1967 and for the parliamentary constituencies before April 1, 1967. In the case of Manipur assembly constituencies the election was completed before March 7, 1967.

Among the States, Bihar has registered the highest increase, a little over 25 per cent. Among the Union Territories Delhi has shown an increase of about 25 per cent. The lowest rise was in Kerala, about eight per cent. In Pondicherry, the electorate has decreased by two per cent from what it was in 1962.

### POLITICAL PARTIES AND SYMBOLS

For the 1967 Election, the Election Commission had prescribed 23 symbols. Sixteen of

them were "Reserved Symbols" and the remaining seven "Free Symbols."

The Commission classified political parties as recognised and others. A political party which contests in more than one State and secures more than 4 per cent of the votes cast in the country as a whole in a general election is classified as a recognised multi-State party for the next general election. Each recognised party is allotted a reserved symbol and the candidate sponsored by it for contesting from different States are allotted the same symbol.

### RECOGNISED MULTI-STATE PARTIES

There are now eight recognised multi-state parties. Their names and symbols allotted to them are : 1. *Indian National Congress* : Two bullocks with the yoke on ; 2. *Communist Party of India* : Ears of corn and sickle ; 3. *Swatantra Party* : Star ; 4. *Communist Party of India (Marxist)* : Hammer, sickle and star ; 5. *Bharatiya Jana Sangh* : Lamp ; 6. *Praja Socialist Party* : Hut ; 7. *Samyukta Socialist Party* : 3 and 8. *Republican Party of India* : Elephant.

### RECOGNISED PARTIES IN DIFFERENT STATES

The names of recognised State Parties, their States and symbols respectively are :

1. Muslim League ; Kerala ; Ladder.
2. Kerala Congress ; Kerala ; Horse.
3. (i) Dravida Munnetra Kazhagam ; Madras ; (ii) United Goans (Fourtado Group) ; Rising Sun.
4. Peasants and Workers' Party ; Maharashtra ; Cart.
5. (i) Shiromani Akali Dal (Master Tara Singh Group) ; Punjab ; United Goans (Sequeira Group), Goa, Daman and Diu : Hand.
6. (i) Forward Bloc ; West Bengal ; (ii) Maharashtrawadi Gomantak ; Goa, Daman and Diu : Lion.
7. All Party Hill Leaders' Conference ; Assam : Flower.
8. Shiromani Akali Dal (Sant Fateh Singh Group) ; Punjab ; Scales.
9. Jammu and Kashmir National Conference ; Jammu and Kashmir ; Plough.

The following symbols, though reserved for multi-state parties (Tree for P.S.P. and Elephant for the Republican Party) have also been made available to :

1. Democratic National Conference ; Jammu and Kashmir : Tree.
2. (i) Frente Populare ; Goa, Daman and Diu ; (ii) People's Front ; Pondicherry : Elephant.

### FREE SYMBOLS

The free symbols, as already stated, are available for allotment to candidates of political parties which are not recognised and to independent candidates, such candidates can indicate the free symbol which they wish to be allotted. The Election Commission has laid down the procedure to be followed if two or more candidates indicate their preference for the same symbol. If one of the candidates is a sitting member of the Lok Sabha or the State Assembly and had been allotted that symbol at the previous election, the returning officer will allot the symbol to that candidate. In all other cases the allotment will be by draw of lots.

### INCREASE IN NUMBER OF MEMBERS

In the 1967 General Elections the number of members of Parliament in the Lok Sabha has gone up by 18 to 521 as against 508 in the 1962 election. Of the 521 seats, 520 are filled by direct elections and the one (allotted to NEFA) by nomination. Seats reserved for Scheduled Castes number 77 and those for Scheduled Tribes 37.

The number of members of Legislative Assemblies in various States and Union Territories

is 3,563 in the 1967 Elections, 158 more than in the 1962 Elections. The State Assemblies will have 3,383 seats and the Union Territories' Assemblies 180. Seats reserved for Scheduled Castes and Scheduled Tribes number 481 and 226 respectively in State Assemblies and 22 and 21 respectively in the Assemblies of Union Territories.

### ELECTION OF PRESIDENT AND VICE-PRESIDENT

The polling for the Presidency took place on 6th May and the result was declared on 9th. Seventeen candidates filed their nomination papers. The candidates were Mr. Bhamburkar Shrinivas Gopal, Mr. Brahma Deo, Mr. Chandradutt Senani, Mr. U. P. Ghugani, Dr. M. C. Davar, Ch. Hari Ram, Mr. Khubi Ram, Mr. Koka Subba Rao, Mr. Krishna Kumar Chatterjee, Mr. Kumar Kamta Singh, Dr. Man Singh, Mrs. Manohara Holkar, Mr. Motilal Bhikabhai Patel, Mr. Seetharamaiah Ramaswamy Sharma Hoysala, Swamy Satyabhakti, Mrs. Yamuna Prasad Trishulia and Dr. Zakir Hussain.

Of 8,38,038 valid votes cast in the polling the result was as follows :

Dr. Zakir Hussain 4,71,244 ; Koka Subba Rao 3,63,971 ; Khubi Ram 1,369 ; Swamy Satyabhakti 750 ; Brahma Deo 232 ; S. G. Bhamurkar 222 ; K. K. Chatterjee 125 and K. K. Singh 125.

The remaining nine candidates secured no votes at all.

The polling for the Vice-Presidency also took place on 6th May and the result was declared on the same day. Two candidates filed their nomination papers. They were Mr. V. V. Giri and Prof. M. Habib. The result of the polling was as follows. Mr. V. V. Giri—483. Prof. M. Habib—193. There were three invalid votes.

### LOK SABHA—ALL-INDIA ANALYSIS

Electorate : 248,889,960. Votes polled : 152,077,606. Polling percentage : 61.10. Valid votes : 145,363,987. Invalid votes : 6,713,619. Percentage : 4.41.

#### Votes polled by parties :

| Name of party                        | Valid votes | Percentage |
|--------------------------------------|-------------|------------|

## ESTIMATES COMMITTEE (1967-68) :

Chairman : P. Venkatasubbalah ; Members :  
Panna Lal Barupal, Onkar Lal Berwa, Maharaaj  
Singh Bharti, Bibhuti Mishra, R. K. Birla,  
Jyotirmoy Bosu, Tridib Chaudhuri, Hardayal  
Devgun, Y. Gadilingana Goud, J. N. Hazarika,  
J. M. Imam, Tulshidas Jadhav, Dhireswar  
Kalita, S. Kandappan, Baij Nath Kureel,  
Yashwant Singh Kushwah, K. Lakhappa,  
Smt. Sangam Laxmi Bai, J. M. Lobo Prabhu,  
Inder J. Malhotra, Yamuna Prasad Mandal,  
Dhuleshwar Meena, F. H. Mohsin, Chintamani  
Panigrahi, Rajdeo Singh, Gajraj Singh Rao,  
Smt. Jayaben Shah, Shantilal Shah, P. Sivasan-  
karan.

## PUBLIC ACCOUNTS COMMITTEE (1967-68) :

Chairman : M. R. Masani ; Members : C. K.  
Bhattacharyya, Sardar Buta Singh, Shivajirao S.  
Deshmukh, R. Muthu Gounder, D. K. Kunte,  
N. R. Laskar, V. Viswanatha Menon, K. K.  
Nayar, Mohammad Yunus Saleem, Narinder  
Kumar Salve, Yogendra Sharma, Sheo Narain,  
Smt. Tarkeshwari Sinha, P. Viswambharan,  
Smt. Devaki Gopidas, P. K. Kumaran, Om  
Mehta, Gaure Murahari, M. C. Shah, Dr. M. M. S.  
Siddhu, B. K. P. Sinha.

## AWARDS—(Contd.).

**R-Day Awards (1967) :** None has been  
awarded the Bharat Ratna this year. There are

The Nehru Award of the Federal Republic of Germany will be conferred, from next year, for the best essay by an Indian university or college teacher on any topic dealing with Indo-German cultural relations, including the influence exercised by India on the culture of German-speaking regions and vice versa.

Entries, which have been invited by the university, will be evaluated by the Vice-chancellor, assisted by a panel of specialists.

The award will be formally given away jointly by the Vice-chancellor and the German Ambassador at a special function arranged in connection with the death anniversary of Nehru.

## BROADCASTING—(Contd.)

More than 1.18 lakh unlicensed radio sets were detected in the country during 1966. A Penalty of about Rs. 15 lakhs was collected from the owners. The number of radio licences during the year 1966-67 rose by 10 lakhs. Their number was 64 lakhs at the end of 1965 compared with 54 lakhs in the previous year. The total revenue collected was about Rs. 9 crores.

## ALL-INDIA CORPORATIONS—(Contd.)

### THE INDUSTRIAL FINANCE CORPORATION OF INDIA

(Head Office : Burmah-Shell House (Annexe II), Connaught Circus, New Delhi; Bombay Office : Liberty Buildings, 8, Marine Lines; Calcutta Office : 23, Rajendra Nath Mukherjee Road; Madras Office : Devraj Mansion, 123, Mount Road).

Authorised Capital : Rs. 10 crores ; Issued and Paid-up capital : Rs. 8.35 crores.

The I.F.C. was established in 1948 with the object of making medium and long-term credits more readily available to industrial concerns in the private sector in India.

Any public limited company or co-operative society incorporated and registered in India which is engaged or proposing to engage in the manufacture, preservation or processing of goods, or in the shipping, mining or hotel industry or in the generation or distribution of electricity or any other form of power is eligible for financial assistance. The finances of the I.F.C. are also available for the setting up of new industrial projects, renovation, modernisation, expansion or diversification of existing ones.

Total assistance sanctioned by the I.F.C. upto 30th June, 1966 is Rs. 292.75 crores in respect of 831 applications from 430 industrial units out of which assistance to the extent of Rs. 201.53 crores had been disbursed. Total assistance outstanding on 30th June 1966 aggregated Rs. 148.97 crores.

During 1965-66, 127 applications aggregating Rs. 43.52 crores were sanctioned to 96 industrial units as against Rs. 33.44 crores for 98 units in the previous year. The quantum of assistance disbursed during the year was Rs. 30.37 crores, out of which cash outgoings amounted to Rs. 28.20 crores. The corresponding figures for the preceding year were Rs. 31.92 crores and Rs. 21.96 crores respectively.

The net profit for the year came to Rs. 132.94 lakhs as against Rs. 131.42 lakhs for the preceding year.

Chairman : A. Bakshi ; General Manager : C. D. Khanna ; Secretary : Baldev Pasricha.

### THE NATIONAL SMALL INDUSTRIES CORPORATION LTD.

New Industrial Estate, Okhla, New Delhi 20.

A Government of India concern, started in February 1955, the main objects being to assist, counsel, finance and promote the interest of small industries in the country.

Authorised capital : Rs. 50 lakhs.

Paid-up : Rs. 50 lakhs divided into 50,000 shares of Rs. 100 each. All shares are held by the President of India and his nominees.

The Government Purchase Division of the Corporation maintains liaison with D.G.S. & D. in order to assist small scale industries in procuring government contracts.

During the ten years of its existence, 6,000 small-scale units had profited by the hire-purchase facility extended by the Corporation and secured machines and equipment costing Rs. 84 crores.

In addition to the marketing of machine tools produced at the Prototype Production and Training Centres, the Corporation has undertaken to market the machine tools produced at the Central Government production centres at Ettumanur and Tiruvalla.

The Corporation constructed two model industrial estates, one at Okhla and the other at Naini.

The Prototype Production and Training Centres have been set up at Okhla, Howrah and Rajkot in collaboration with the Government of Federal Republic of West Germany, Governments of Japan and U.S.A. respectively. The main function of the Centres is to develop prototypes of machines for the purpose of passing them on to the small industrial units for production on mass scale and to train artisans drawn from the small scale industries. The Centre at Okhla is at present engaged in the prototyping work in respect of three machines, namely, Weller Lathe, Tool and Cutter Grinder and Milling Machine, the manufacturing rights in respect of which have been presented to the Government of India by the Government of Federal Republic of West Germany. The Centre at Howrah is also engaged in the prototyping work of two machines, namely 80 C.T. Die Casting and 45 mm. P.V.C. Extruder. The number of trainees

at the above Centres is about 600. In all over 2,000 trainees had graduated from the above centres.

Chairman : C. R. Sundaram.

**Tourism Development Corporation (Contd.) :** The India Tourism Development Corporation—formed during Oct. 1966 by merging three corporations—has made a small profit in six months.

All the three corporations—Hotel Corporation of India, India Tourism Corporation and India Tourism Transport Undertaking—which were formed to promote tourism ended their first year, 1965-66, with losses of Rs. 1.49 lakhs, Rs. 55,000 and Rs. 1.34 lakhs respectively.

After amalgamation, the transport division made a profit of Rs. 1.60 lakhs while the production and publicity division reported "no-profit-no-loss." Only the hotel division incurred a loss of Rs. 1.55 lakhs. Thus, the new corporation (ITDC) made a profit of Rs. 5,000 in 1966-67 after merger.

**National Buildings Construction Corporation (Contd.) :** The National Buildings Construction Corporation, a Government concern, incurred a loss of Rs. 20.5 lakhs on works valued at Rs. 364.39 lakhs executed by it during 1965-66.

A sub-committee had recommended that the corporation should switch over to specialised type of construction like mechanised road-work, fabrication of steel structures, pile driving, multi-storeyed buildings and sewage works.

**National Projects Construction Corporation—(Contd.) :** The report on the National Projects Construction Corporation for 1965-66 presented to the Rajya Sabha reveals that works of over Rs. 38 crores were executed yielding a profit of Rs. 160.94 lakhs during nine years of its existence. During the year, the output of works was of the value of Rs. 940.95 lakhs, the highest so far.

In 1965-66 three new works of the value of Rs. 1.9 crores were executed in Jammu and Kashmir and the Union Territory of Delhi. Amongst these was construction of two tunnels in the Chenani hydro-electric project in Jammu and Kashmir costing nearly Rs. 1.2 crores.

## STATE CORPORATIONS—(Contd.)

### U. P. FINANCIAL CORPORATION 7/154, Swarupnagar K.

The Corporation was established on Nov. 1, 1954. It has an authorised capital of Rs. 3 crores, which is divided into 3 lakh fully paid-up shares of Rs. 100 each. The paid-up capital of the Corporation as on date is Rs. 1 crore divided into 1 lakh shares of Rs. 100 each fully paid-up. These shares have been distributed in this way : 55,360 State Government ; 15,000 Reserve Bank ;

27,096 Scheduled Banks, Co-operative Banks, Insurance Companies, Investment Trusts and other Financial Institutions ; 2,544 others.

The object is to provide finance to small and medium scale industries.

The Corporation received during the year 1965-66 (upto March 31, 1966) 47 applications as against Corporation Funds and 95 applications forwarded by the Director of Industries as against

Government Funds placed at the disposal of the Corporation.

Out of the above applications received, 12 applications amounting to Rs. 75,17,000 were sanctioned against Corporation and 61 applications amounting to Rs. 42,04,500 were sanctioned against Government Funds.

Profit for 1965-66 : Rs. 9,85,418.49.

Bharat Bhushan (Managing Director) ; B. L. Manchanda (Secretary).

## EDUCATION—(Contd.)

### TECHNICAL EDUCATION

The All-India Council for Technical Education was set up by the Government of India in November 1945 to advise them on all matters relating to the co-ordination and development of technical education in the country after the high school stage. Its personnel have been drawn from Government of India Departments, State Governments, Parliament, industry and commerce, professional and educational bodies.

Five Higher Technological Institutions of national importance, one in each region, at Kharagpur, Bombay, Madras, New Delhi and Kanpur have been set up. Besides these higher technological institutions, fourteen large-sized regional engineering colleges, a number of other engineering colleges, technological institutions and polytechnics have been set up. For specialised courses such as Mining, Engineering and Metallurgy, a number of centres have been established both for degree and diploma courses. For Printing Technology, four regional schools one each at Madras, Calcutta, Allahabad and Bombay have been established. New faculties have been added in institutions whose activities were previously restricted. For instance, Tele-communication Engineering, Chemical Engineering, Architecture, Textile Technology, Petroleum Technology, Production Technology, Geophysics are some of the subjects in which several institutions are today offering courses. Besides the establishment of new institutions and new courses, the old institutions have also been expanded and developed. In 1947 there were only 38 institutions for degree courses in engineering and technology and 53 institutions for diploma courses with an admission capacity of 2,940 and 3,670 respectively. By the end of the Second Plan period viz. by 1960-61, the number of institutions for degree and diploma courses rose to 102 and 195 with an admission capacity of 13,824 and 25,501 respectively and by 1964-65 the number of institutions has risen to 131 and 264 with an admission capacity of 23,757 and 46,243 respectively. By 1965-66 the number of institutions has risen to 133 and 274 with an admission capacity of 24,695 and 48,048 respectively. Thus since 1947 admissions to degree courses have increased nearly eight-fold and admissions to diploma courses more than thirteen fold. Prior to 1947, facilities for post-graduate courses were practically non-existent. Today a large number of Centres have been developed and about 2,200 places have been made available for advanced training for post-graduate courses and research. Thought has also been given to technical training at secondary stage and facilities for technical education at this level have been created by establishing junior technical schools, a special type of schools, designed specially for those who wish to enter industry and other technical occupations. 104 Junior Technical Schools have been established by the academic year 1965-66.

#### All India Council

The Council represents all the interests which are concerned with the technical education. It consists of representatives of all State Governments, Ministries of the Central Government, Parliament, Industry, Commerce, Labour, Professional and learned societies, Universities, Technical Institutions and various other concerned interests. Its functioning, *inter-alia*, includes the preparation of plans for the development of technical man-power of different types and suggesting measures to meet them, suggesting improvement in the pattern of technical education from time to time to suit changing conditions, establishing liaison between industry, Government departments and other organisations on the one hand and technical institutions on the other, coordinating the activities of States, recommending grants and other forms of assistance that might be given by the Centre to the State Government institutions, University institutions and other organisations for develop-

ment of technical education. For the proper discharge of its functions, the Council has set up a Coordinating Committee, four Regional Committees and seven Boards of Technical Studies. The regional committees assist the Council in promoting a coordinated development of technical education in the regions. The coordinating committee is the Executive of the Council and coordinates work of the regional committees and the boards of studies.

#### Courses

Technical Education in India is a four-tiered structure comprising post-graduate courses and research; first degree courses; diploma courses; and Vocational or Industrial training. Each tier is a self-contained aspect intended to serve a specific purpose.

A scheme has also been formulated for a two-year diploma course for training technicians, with higher secondary as the admission qualification. The scheme aims at giving specialised training in particular fields of engineering directly related to the functions of a diploma holder in industry. It is proposed to introduce the scheme in about 30 selected engineering colleges each with an annual capacity of 90 students.

Another scheme has been formulated for part-time diploma courses in engineering for persons working in the industry. To begin with, 25 centres with about 2,500 annual admissions will be organised at existing polytechnics. Out of 25 centres approved for the purpose, 16 centres have already started functioning.

**Higher Institutes of Technology:** Five Higher Technological Institutes have been established one in each region, at Kharagpur, Bombay, Madras, Kanpur and Delhi. The institutes have started functioning since 1951, 1958, 1959, 1960 and 1961 respectively. The ultimate student enrolment at the Kharagpur institute is 2,500 (2,000 under-graduates and 500 post-graduate and research workers). In the case of other institutes, the target is 1,600 under-graduates and 400 at the post-graduate and research level. These institutions have been declared as institutions of national importance by an Act of Parliament. A high-powered council under the chairmanship of Minister of Scientific Research and Cultural Affairs\* as provided under the Act, has been set up to coordinate the activities of these Higher Technological Institutions. The concept behind the establishment of these institutions is that for the training of the highest possible grades of technologists who are required in large numbers, national institutes provided with all necessary resources and full freedom to adapt themselves to the fast changing situations are necessary. In addition to the training of technical personnel, the institutions should be the fountain-heads of scientific and technical knowledge and should contribute through research and other activities to the industrial achievement of the country.

The admission to these institutes at the under-graduate level are made on the basis of a common entrance examination conducted at several centres in the country and one centre at London.

**Indian Institute of Science, Bangalore:** An important centre of post-graduate studies in Engineering is the Indian Institute of Science, Bangalore, established in 1911. In the last 15 years, the institute has become a centre of advanced technology with particular reference to Power Engineering, Aeronautical Engineering, Metallurgy, Internal Combustion Engineering and Electrical Communication Engineering.

**School of Planning and Architecture, Delhi:** The School offers graduate courses in Architecture for the Bachelor's degree course of the university of Delhi and the National Diploma course of the All India Council for Technical Education. Besides, post-graduate courses in Town and Country Planning—both part-time and full-time and in Housing (full-time) are run by the School.

**All India Institute of Management, Calcutta and Ahmedabad:** The institutes were established by the Central Government in 1962-63 in collaboration with the State Governments, local industrialists and Ford Foundation. They conduct post-graduate courses and research in management and related fields. The institutes also do consultancy work in response to requests from Government departments and private enterprises.

**Administrative Staff College, Hyderabad:** Established in 1957 as a joint enterprise of the Central Government and private industry and commerce, this institute offers a 12-week course to young administrators from all walks of national life in the principles and techniques of organisation, administration and leadership in civil life.

**Central School of Printing, Kalyani:** To meet the demands for trained technical personnel at the higher executive levels for efficient and economic management of the presses particularly those engaged in quality printing, the Central Government will establish during the Fourth Plan a Central School of Printing at Kalyani near Calcutta. Apart from preparing students to degree level, the School will also provide research facilities and prepare students to play an effective role in the ever expanding areas of graphic arts, photography, printing and packaging.

**National Institute for Training in Industrial Engineering, Bombay:** Established in 1964 with the U.N. Special Assistance Fund, the institute is intended to train suitably qualified persons in industrial engineering and to conduct research in industrial engineering methods and techniques.

**National Institute of Foundry & Forge Technology, Ranchi:** With a view to providing training facilities in foundry engineering and forging, the Central Government had approved the establishment of the institute in 1966-67. It will also conduct short-term refresher courses in the latest methods and techniques of production, design and development for persons working in the industry.

In the Third Plan a much larger outlay has been made. An amount of Rs. 140.35 crores is proposed to be spent on the expansion of technical education—Rs. 69.44 crores by the Central Government and Rs. 70.91 crores by the States.

**Foreign Aid:** The extent of foreign aid received for technical education during 1963 is as below:

(i) Number of foreign experts—16; (ii) Equipment—Rs. 0.44 million; (iii) Number of Fellowships for the training abroad—17.

#### Third Plan Programmes

The Third Plan envisaged provision of 25,000 admission to first degree courses and 50,000 admission to diploma courses in engineering and technology by 1965-66. To achieve these targets, plans had been formulated to develop fully higher technological institutions, certain other institutions and establishment of 23 new engineering colleges and 94 new polytechnics. Out of these, 21 engineering colleges and 76 polytechnics have been started by the end of Third Plan period. Intake capacity of certain existing institutions has also been increased. The revised targets have nearly been reached.

A provision for the establishment of 117 junior technical schools and 24 technical institutions for girls has also been made in the Third Plan out of which 48 junior technical schools and 17 technical institutions for girls have been started in the first four years of the Plan-period.

#### Fourth Plan Programme

At the degree level, a provision of about 1,300 additional seats is suggested in the Fourth Five Year Plan for specialised courses like Instrument Technology, Nuclear Power Engineering and Electronics, etc.

\* Now Minister of Education.

At the diploma level, a provision of about 14,000 additional seats (including 3,500 for part-time courses) is envisaged.

It is also proposed to provide facilities for correspondence courses in engineering and technology.

In pursuance of the recommendations made at the Conference of State Education Ministers held at Madras in June, 1966, the Central Government has appointed a high powered Committee under the Chairmanship of Dr. V. K. R. V. Rao, Member (Education), Planning Commission, to reassess the requirements of technical personnel in different specialities required for the Fifth and subsequent Plan periods and to review the physical targets suggested above. Therefore, the precise order of expansion of technical education during the Fourth Five Year Plan and fixation of their relative priorities will depend on the recommendations of the Rao Committee.

The All India Council for Technical Education has also appointed a Committee of seven persons including educationists and industrialists to examine the various problems in technical education and to suggest ways and means to bring about improvement in quality.

The Plan also envisages to provide post-graduate and research training facilities for 20 per cent of the output of graduates in engineering.

The Council has approved in principle, the establishment of institute for training in foremanship and supervision in collaboration with industry.

The Council has recommended that for the needs of automobile industry, special courses at the diploma level in automobile engineering should be provided at various centres on full-time as well as sandwich pattern basis.

The Council has also recommended that the institutions charging fees at high rate should bring down their fees so that no institution in the country realises a fee more than Rs. 400 for degree courses and Rs. 220 for diploma courses per year from the students.

**Practical Training Stipends Scheme:** Under this scheme, senior stipends of the value of Rs. 250 per month are given to degree holders and junior stipends of the value of Rs. 150 per month are given to diploma holders. The duration of the training is one to two years.

**Merit-cum-Means Scholarships Scheme:** Under the scheme, 1,969 scholarships were instituted during the Second Five Year Plan. Under the Third Plan, 12,905 scholarships for fresh entrants for degree and diploma courses have been instituted. Each scholarship is tenable for the full course of studies of the students concerned (provided the progress is satisfactory), and is of the value of Rs. 75 per month for degree students and Rs. 50 per month for diploma students. In addition, the scholarship holders are exempted from the tuition fees.

**Technical Teachers Training Programme:** Under the scheme, fellowships of the value of Rs. 400 per month are awarded to young graduates who have obtained at least 60 per cent marks in the qualifying examination in the appro-

prate branch of engineering, metallurgy or architecture. The training period lasts for two to three years. On the completion of training, they are posted as lecturers in the technical institutions.

**Mine Surveyor's Examination:** The examinations for the Mine Surveyor's and the Second class Manager's Certificate of Competency are held twice a year.

The State Governments have been advised to create facilities for part-time education of mine workers to prepare them for "Shortfired" and "Sirdors" examination.

The Government of India have under consideration a scheme for vocational training of all mine workers. It has been decided to set up a National Mine Safety Council *inter alia* to arrange for refresher courses for members of supervisory staff.

Table below shows the progress made in this field—the number of institutions in existence, the intake of students and the outturn of students:

|              |         | 1947  | 1951  | 1956   | 1961   | 1964   |
|--------------|---------|-------|-------|--------|--------|--------|
| Institutions | Degree  | 38    | 53    | 71     | 111    | 133    |
|              | Diploma | 53    | 89    | 109    | 209    | 274    |
| Intake       | Degree  | 2,940 | 4,788 | 6,612  | 15,850 | 24,695 |
|              | Diploma | 3,670 | 6,216 | 10,318 | 27,701 | 48,048 |
| Outturn      | Degree  | 1,270 | 2,693 | 4,337  | 7,026  | 10,282 |
|              | Diploma | 1,440 | 2,626 | 4,103  | 10,349 | 17,699 |

#### U. G. C. Report

According to the University Grants Commission's report for 1965-66 the total enrolment in the university colleges and departments during 1965-66 was 2,07,558 against 15,21,215 in the affiliated colleges. Thus, about 88 per cent. of the students were receiving their education in the affiliated colleges during 1965-66.

The enrolment, according to the report, rose from 7,12,697 in 1955-56 to 17,28,773 in 1965-66.

The report states UGC paid Rs. 10.90 crores as grants during 1965-66 to the Central and State universities for the development of higher education. This included Rs. 2.51 crores for science subjects, Rs. 1.38 crores for humanities and social sciences and Rs. 1.92 crores for engineering and technology.

During the Third Plan the number of universities rose from 45 in 1960 to 64 in 1966. The number of colleges functioning in 1965-66 was 2,572 against 1,783 in 1961-62.

## FOREIGN AID TO INDIA

INDIA has received technical assistance from many friendly foreign countries and specialised institutes of the United Nations. The total amount of loans and credits authorised from all sources (excluding PL-480 and PL-665 assistance) since the inception of the First Five Year Plan up to the end of the Third Five Year Plan amounted to Rs. 38,686.5 million. Of this a sum of Rs. 2,946.1 million was repayable in rupees. Repayment in the case of

U.S.S.R. and other East European countries are mostly in the form of export of goods. Besides the above, grant assistance during the three plan periods totalled Rs. 4,013.0 million while the commodity assistance under the PL-480 and PL-665 programme including Third Country Currency assistance amounted to Rs. 15,982.8 million.

Against the total assistance of Rs. 42,699.5

million extended by various donor countries and international agencies, exclusive of commodity assistance a sum of Rs. 31,036.7 million had been utilised up to the end of March 1966.

The following table shows at a glance the aid received from all sources up to March 31, 1966. The rupee equivalents of foreign aid have been shown at predevaluation rates as it covers the period ending March 31, 1966.

## WORLD BANK

India has been receiving long term loans from the World Bank for financing various development projects both in the public and private sectors since 1949. The loans given by the World Bank to private parties in India are guaranteed by the Govt. of India as required under the Articles of Agreement of the World Bank. The Bank has also helped India in raising external finance for the implementation of the Five Year Plans, by organising a Consortium of developed

countries (which are members of the World Bank) interested in India's economic development.

Upto March 31, 1966, i.e. till the end of the Third Five Year Plan, the total amount of loans made available by the World Bank (net of cancellations), for both the public and private sector projects and programmes, was \$971.9 million (Rs. 4,628 million). Against this, as much as \$597.9 million (Rs. 3,800 million) was actually drawn upto March 31, 1966, leaving an

amount of \$174 million (Rs. 828 million) to be utilised during the Fourth Five Year Plan.

A purpose-wise distribution of the loans given by the World Bank is given below (Figures in million dollars): Railways 377.81; Ports 61.00; Aviation 5.60; Power (generation and transmission) 175.44; Steel Plants 176.15; Coal Industry 29.06; Other industries (through loans to LIC) 139.65; Agriculture 7.20. Total 971.91.

\* These loans have been sanctioned in pursuance of the commitments made by the World Bank at the various Consortium meetings from May 1961 onwards.

The following figures indicate the authorisation and utilisation respectively of various loans during each of the three Five Year Plans (Figures in Rs. millions): Up to the end of the First Five Year Plan: 572.1; 338.2; During the Second Five Year Plan 2,610.4; 2,227.9; During the Third Five Year Plan: 1961-62: 664.6; 359.1; 1962-63: —; 335.9; 1963-64: 142.9; 149.4; 1964-65: —; 175.9; 1965-66: 638.1; 213.3; Total 4,628.1; 3,799.7.

## INTERNATIONAL DEVELOPMENT ASSOCIATION

I.D.A. Credits are generally repayable over periods ranging upto 50 years with a moratorium of 10 years. No interest is charged on these

credits though a service charge of 3/4 of one per cent per annum, to cover the Association's administrative expenses, is payable on the amounts outstanding from time to time. Up to end of the Third Five Year Plan, i.e. March 31, 1966, the IDA has extended seventeen credits

to India in pursuance of the commitments made in the Consortium meetings. The names of the projects for which the credits were sanctioned and the amounts of credits and draws upto end of March 1966 are given below:—

(Million Dollars)

| Sl. No.            | Name of the Project                                                   | Date of Agreement | Amount of the Credit | Amount drawn  |

The following figures indicate the year-wise authorisation and utilisation respectively from inception to the end of March 1966 (Rs. millions): 1961-62: 509.5; 12.3; 1962-63: 823.7; 90.4; 1963-64: 95.2; 420.7; 1964-65: 880.9; 584.0; 1965-66: 476.2; 898.9; Total 2,785.5; 2,006.3.

\* An amount of \$530,000 has since been cancelled on 4-4-1966.

## CONSORTIUM AID TO INDIA

The International Bank for Reconstruction and Development has been making a signal contribution to India's development efforts not only by giving direct loans but also by convening conferences of friendly countries under its auspices and invoking international cooperation with a view to ensuring an adequate and sustained flow of assistance for India's Five Year Plans.

The number of countries represented at these conferences has been steadily increasing. The original members of the Consortium were Canada, Japan, United Kingdom, the U.S.A., West Germany and the World Bank. At the meeting held in May-June 1961, France and the newly formed International Development Association also joined. Besides, Austria, Denmark, Norway, Sweden and the International Monetary Fund had sent observers to these meetings. With the joining of Austria, Belgium, Italy and the Netherlands in 1962 the number of members rose to 12. The International Monetary Fund continues to send an observer.

The Aid-India Consortium been considering India's requirements of external assistance for the Five Year Plans in its periodical meetings since May-June 1961. Taking into account the aid pledged by the Consortium in its last meeting in April 1965 (to consider aid to India for the year 1965-66), the total aid made available by the Consortium for India's Third Five Year Plan amounts to \$5472 million (Rs. 26,058 million) as shown in the table below.

§ Rupee figures in this line are at post-devaluation rate.

@ Includes Rs. 20.86 crores from France and Rs. 8.64 crores ad-hoc credit from Japan for which yearwise break up of utilization is not available.

NOTE.—1. Figures in brackets are in million U.S. dollars.

2. Unspent balance of foreign aid has been converted into rupees at the post devaluation rate of exchange.

3. For conversion into rupees of aid authorised or utilised the prevalent rate of exchange has been used.

## FOREIGN INVESTMENTS IN INDIA—(Contd.)

**India's Foreign Indebtedness:**—India's net external indebtedness increased by Rs. 440 crores to Rs. 3,705 crores during the year ended March, 1966.

Total foreign assets increased by just Rs. 66 crores to Rs. 694 crores, while aggregate foreign liabilities swelled by Rs. 506 crores to Rs. 4,399 crores.

More than 80 per cent. of the additional net indebtedness, as in the previous year, was incurred by the official sector. The official sector's foreign assets rose by Rs. 32 crores to Rs. 570 crores, while foreign liabilities shot up by Rs. 477 crores to Rs. 3,307 crores. Outstanding loans accounted for Rs. 2,768 crores at the end of March, 1966, against Rs. 2,352 crores at the end of March, 1965.

The private sector attracted a further inflow of foreign investment, raising its net indebtedness to Rs. 960 crores from Rs. 905 crores.

## GOVERNMENT INDUSTRIAL UNDERTAKINGS—(Contd.)

## ATOMIC ENERGY

The Department of Atomic Energy and its units under the stewardship of Dr. Vikram A. Sarabhai kept up the momentum of progress achieved in the days of the late Dr. Bhabha.

The three reactors, Apsara, Cirus and Zerlina, were fully utilised for research and isotope production, according to the annual report of the Department of Atomic Energy.

Apsara was operated on a round-the-clock schedule, producing a power output of 2.69 million kilowatt-hours, the highest since it became critical on August 4, 1956.

Isotopes and labelled compounds produced in the Bhabha Atomic Research Centre found a market in Australia, Ceylon, Czechoslovakia, East Germany, France, Hong Kong and the Philippines earning about Rs. 64,000 in foreign exchange, apart from meeting requirements within the country.

The production of nuclear grade uranium was maintained to meet the needs of Cirus and Zerlina.

The Chemistry Division prepared and supplied a number of high purity chemicals worth about Rs. 1 lakh, while the Chemical Engineering Division prepared organic and inorganic compounds labelled with heavy hydrogen to meet the requirements within BARC. The foreign exchange saving in this respect was around Rs. 28,000.

The Technical Physics Division fabricated various items of equipment worth about Rs. 6.4 lakhs, of which the foreign exchange component was only Rs. 1.8 lakhs. The c.i.f. value of these items, if wholly imported, would have been Rs. 23.9 lakhs.

The Electronics Division has undertaken the fabrication of control equipment worth more than Rs. 10 lakhs for the Tarapur atomic power project.

During 1966-67, foreign exchange earnings from the export of rare earths products were twice that in the previous year. The entire output of rare earths products was exported and over Rs. 1 crore in foreign exchange was realised. Persistent efforts enabled the Indian Rare Earths Ltd., to gain a foothold in the American market, and, for the first time, zircon was exported in bulk to Japan.

CHITTARANJAN LOCOMOTIVE WORKS  
(Chittaranjan, Burdwan Dt., West Bengal)

Branch Office: Hindustan Buildings, 4, Chittaranjan Avenue, Calcutta 13

The plant, originally planned for production of 120 steam locomotives with 50 spare boilers a year, has made considerable progressive strides towards increasing the production, bringing down the cost and reducing the import content.

The cost of the first locomotive turned out was over Rs. 7 lakhs. The cost of a locomotive has

now come down to Rs. 4.8 lakhs. Likewise the import content per locomotive has come down from over Rs. 2.5 lakhs to about Rs. 10,000.

Manufacture of Electric Locomotives was undertaken in 1960 and the first DC Locomotive "LOKAMANYA" was commissioned on 14th Oct., 1961 and the first Chaittaranjan built 25 Kv AC Electric Locomotive "BIDHAN" was commissioned on 16th Nov., 1963. The ultimate aim is to progressively taper down the production of steam locomotives and utilise the capacity to step up production of electric locomotives to 150 per year and manufacture traction equipment as also a limited number of Diesel Shunters. While the cost of an AC Locomotive stands at Rs. 12.68 lakhs the import content thereof is Rs. 6 lakhs. The figure will be considerably brought down during the Fourth Plan with the development of indigenous capacity and after the Project for the manufacture of traction equipment which is well under way is completed.

The Galvanising Plant was installed here in 1959 for galvanising steel masts required for the Railway Electrification at a cost of approximately Rs. 15.13 lakhs. The Plant was commissioned in 1959. The galvanizing of the masts at Chittaranjan has resulted in savings worth more than the cost of the plant itself.

**Steel Foundry:** The annual capacity of the Steel Foundry is 10,000 tonnes of steel castings per annum including 1,000 tonnes of manganese steel crossings. During a short period of about three years all the steel castings required for Steam, Electric and Diesel locomotives have been fully developed.

#### HINDUSTAN CABLES LIMITED

Ministry of Industry and Supply  
Govt. of India.

(P. O. Hindustan Cables,  
Rupnarainpur Rly. Station,  
Burdwan Dt., West Bengal)

Hindustan Cables Ltd., is the only organisation in the country engaged in the manufacture of various types of telecommunication Cables and wires. It is a public sector organisation under the Ministry of Industry, Govt. of India.

Envisaged soon after the independence of the Country, the factory, situated near Chittaranjan, first went into production in September, 1954. Technical collaboration was provided by Messrs. Standard Telephones & Cables, London.

#### Shown Local Exchange Cables

The first line of manufacture was for Dry Core paper insulated lead sheathed and steel tape armoured underground telephone cables ranging from sizes 20 pairs to 1,000 pairs. This type of cables still forms the basic product of the Company. These cables are primarily intended for local exchange systems as also for tool working.

Commencing with a modest production of 180 Kilometers in 1954-55, the Company manufactured over 3,572 Kilometers of this type of cables during the financial year ending on 31st March, 1966.

#### Co-axial Cables

In late 1960, Hindustan Cables Limited set up a manufacturing unit for production of 2 core .375 PDWI Co-axial Cables suitable for 960 channel long distance working. This unit was set up to fit in with the Indian P & T Department's ambitious plan to link up the major trunk centres in the country with a Co-axial cables network. The production during the financial year ending on 31st March 1966 reached 839 Kilometers.

The capacity has been further added by the Company which will enable it to step up its production of two tube Co-axial Cables to 1,200 Kilometers a year. Besides this .375 type Co-axial Cables, a plant for the manufacture of .163B Small Co-axial Cables and a plant for 300

channel long distance workings have been set up recently and regular production has also commenced. In 1965-66, 224 Kilometres of cables were produced.

#### Plastic Cables and Wires

The Company has also lately gone into production of a few varieties of Plastic insulated Cables and wires required by the P & T Departments and other users for Telephone Communication. Some of these are suitable for underground use and some others for indoor and overhead outdoor use. The Company manufactured over 18,400 Core kms. of these products in 1965-66.

#### Expansion

To meet the rapid increase in the demand of telecommunication Cables in the Country and to achieve self-sufficiency by the end of the 4th Plan period, the Company has already taken up schemes for further expansion which include the setting up of additional manufacturing capacity as below:—

(a) Setting up of an Aluminium sheathed Telecommunication Cables Project of capacity of 1,000 km per annum.

(b) Expansion of capacity at Rupnarainpur to 8,000 km per annum for underground Telephone Cables.

(c) Setting up of a second factory elsewhere at the rated capacity of 8,000 km per annum for underground Telephone Cables.

#### General

With the factory, the township is also fast growing. Rupnarainpur, situated only 150 miles away from Calcutta, is rapidly developing into an Industrial Complex. The Company employs more than 2,000 people at present who work round-the-clock to meet the ever increasing demand for telephone Cables.

The Company runs its own township which is developing rapidly. It has provided several welfare and other amenities. To cite a few, it provides free education in the Company's schools to children of lower grade employees. Free tiffin and uniforms are provided to all school going children. The Company actively assists the Employees' Co-operative Society which supplies ration and food stuffs, general provisions etc. and runs a fair vegetable shop and a laundry.

The Company also assists the employees recreational club as also the Women's Organisation which look after several welfare matters. The Company has also opened a cinema hall and regular film shows are.

Hindustan Cables is thus developing fast and growing into one of the premier industries of the country and as one of the most successful public sector undertakings, has been recognised through Presidential Awards for three consecutive years, 1960-61, 1961-62 and 1962-63.

#### BHARAT ELECTRONICS LTD.

The B.E.L. produced goods worth Rs. 928.74 lakhs in 1965-66. The company earned a net profit of Rs. 144.10 lakhs in 1965-66. Out of the net profit Rs. 74.33 lakhs had been ploughed back into business.

The foreign exchange saved during 1965-66 was Rs. 593 lakhs on completed equipment only.

During the year, 26 major types and 40 minor types of equipment were produced. A number of VHF trans-receivers were modified to increase the scope of operation.

During the year, 3.6 million transistors and 900,000 diodes were manufactured. *Mg. Dir.: Lt. Gen. A. C. Iyappa. (B. V. Baliga has retired).*

#### HINDUSTAN INSECTICIDES LTD.

**DDT output:**—Hindustan Insecticides Limited set up an all-time production record of DDT in 1966-67.

The output at the Delhi and Alwaye factories of this public-sector undertaking totalled 3,097 tonnes—1,560 tonnes at the Delhi factory and 1,537 tonnes at Alwaye. The gross profit of the

undertaking in 1966-67 it is estimated, would be Rs. 56.62 lakhs against Rs. 48.87 lakhs in the preceding year.

#### HINDUSTAN MACHINE TOOLS

Production at the State-owned Hindustan Machine Tools at Bangalore reached the Rs. 15-crore mark during the financial year ended March 31, 1967. Production for 1965-66 was about Rs. 13 crores, according to a press note.

The machine tool factories at Jalahalli near Bangalore, Pinjore in Haryana, Kalamassery, in Kerala and Hyderabad in Andhra Pradesh, accounted for a combined output of 2,682 machines, valued at Rs. 12.5 crores. The combined production for the previous year was 2,048 machines, valued at Rs. 11 crores. The watch factory accounted for the balance production worth Rs. 2.5 crores, having turned out 240,100 watches.

There has been an increase of 25 per cent. in watch production.

With a further diversification of its production lines in 1966-67 by the addition of broaching machines and horizontal boring machines, HMT is now in a position to meet a substantial portion of the country's requirements in machine tools and also accelerate its export efforts.

The wide range of machine tools include high precision high-speed lathes, milling machines, radial drills, general purpose lathes and cylindrical grinding machines.

**Kalamassery Factory:** The one thousandth machine turned out by the State-owned Hindustan Machine Tools (HMT) at Kalamassery, since its commissioning on October 2, 1964, rolled out of the factory's assembly line on March 30, 1967.

During the financial year 1966-67, 670 machines valued at about Rs. 260 lakhs were produced against 331 machines valued at Rs. 140 lakhs during the last year. This represented a 100 per cent increase in production.

The machines depatched by the HMT factory at Kalamassery included two machines exported to New Zealand.

#### INDIAN TELEPHONE INDUSTRIES

The State-owned Indian Telephone Industries at Bangalore registered a record turnover of Rs. 16.5 crores during 1966-67, an increase of nearly Rs. 4.5 crores or about 30 per cent. over the previous year. This also shows an increase of about 80 per cent over the turnover of 1963-64.

The company also increased its exports from about Rs. 9.5 lakhs in 1965-66 to over Rs. 80 lakhs in the year ended March 1967.

#### PRAGA TOOLS

The sales of machine tools produced by the Praga Tools Limited, dropped from Rs. 145.82 lakhs in 1964-65 to Rs. 117.40 lakhs in 1965-66, according to the annual report of the company for 1965-66.

According to the report the gross profit of the company in 1965-66 before providing for depreciation, development rebate, etc., amounted to Rs. 24.22 lakhs against Rs. 28.21 lakhs in the year before.

With the slump in sales and an increase in expenditure on certain items like cost of raw materials, wage bill, etc., the company showed lower operating profit during the year.

#### STEEL PLANTS

The total investment in the steel industry in the public sector so far amounts to Rs. 1,028.5 crores, according to an official review released in March 1967 on the working of Hindustan Steel Limited.

During 1966-67 alone the Government had advanced loans of Rs. 60.4 crores to the company raising the total amount of loans sanctioned so far to Rs. 500.5 crores.

As against this the company's net profits showed a fall from Rs. 2.14 crores in 1964-65 to Rs. 1.66 crores in 1965-66.

The cumulative loss from the inception of the Company to the end of March 1966 came down to Rs. 59.3 crores from Rs. 77.4 crores at the end of 1964-65.

In 1965-66 the Durgapur steel plant incurred a net loss of Rs. 2.3 crores as against a profit of Rs. 53 lakhs in the previous year.

### EXPANSION PLANS

As regards the expansion of existing steel plants the review says that the entire expansion of the Bhilai steel plant which will take its annual capacity to 2.5 million ingot tonnes, is now almost complete except for the wire rod mill, which is likely to be commissioned by about the middle of this year.

At Bourkela, where annual capacity is being expanded to 1.8 million tonnes, a new L.D. converter has been commissioned and a fifth is almost ready.

In Durgapur, where the plant is being expanded to a capacity of 1.6 million tonnes a year, part of a new coke oven battery was lighted recently and the other part is also now ready.

In the Durgapur alloy steels project, whose initial capacity will be 60,000 tonnes of finished products, the steel melting shop, the forge shop and a part of the bar mill have started production.

According to the review, it is envisaged that during the Fourth Plan Bhilai would be expanded from 2.5 to 3.2 million tonnes ingot capacity, Durgapur from 1.6 to 3.4 million tonnes and Bourkela from 1.8 to 2.5 million tonnes.

## IMPORT AND EXPORT TRADE—(Contd.)

### EXPORTS

India's exports in the eight months after devaluation (June, 1966, to January, 1967) declined by \$129.9 million, according to the latest official review of the foreign trade.

The review, also estimates a fall of \$130 million in exports in 1966-67, compared with the previous year.

The total exports during the eight months after devaluation are estimated at \$1,021.8

million, against \$1,151.7 million in the corresponding period of the previous year.

The total exports in 1966-67 are estimated at \$1,560-1,565 million against \$1,690 million in 1965-66.

## INDIA'S FRONTIER WITH CHINA

The course of the frontier may, broadly speaking, be described as follows.

India's northern frontier with China extends over 2,500 miles from north-west Kashmir to the tripartite junction of India, Burma and China near the Talu Pass. The frontier is traditional and well enough known.

In some sectors it has also been demarcated or defined. It runs along the Muztagh and the Karakoram ranges through the Karakoram pass and then along the Kuen Lun ranges to a point east of 80° longitude. Thereafter, it follows the watershed and runs through Lanak pass and along the Changchengmo range. Cutting across the Pangong Tso and the Spanggur Tso, it runs through Chang pass and along the Kailash range. It then turns south-west near Demchok and skirting the Hanle mountains cuts across the Para Chu river south of Chumar. It then follows the watershed between the Spiti and the Para Chu and the watershed between the Ganga and the Sutlej to the tri-junction of India, Nepal and China.

The boundary of Sikkim and Tibet is also a watershed, while the crest of the Himalayas forms the boundary between Bhutan and Tibet.

The north-east frontier of India, about 700 miles long, from the eastern Limits of Bhutan to a point near the Talu pass, is for the most part the northern watershed of the Brahmaputra. This is the so-called McMahon Line.

**Frontier of Kashmir with Tibet:** The frontier in this sector is about 1,100 miles long. About 300 miles of the extreme western sector is covered by the territory of Kashmir which is illegally occupied by Pakistan. The major part of Kashmir's frontier with China runs along a well-defined watershed, and the eastern section in particular has been recognised by custom for over three centuries. It was also confirmed by treaties signed between Ladakh and Tibet circa 1684 and in 1842. This boundary includes in India, the whole of the Aksaichin plateau, the Changchengmo valley, and the Pangong, Rupshu and Hanle areas. However, Chinese maps have been showing the boundary in this area much further west so as to include about 6,000 square miles—the greater part of Aksaichin, and parts of the Changchengmo valley, and the Pangong, Spanggur Tso and Chang La areas—in Tibet. The road constructed by the Chinese runs for about a hundred miles through the eastern part of Aksaichin. In September 1957 it was announced that this road had been completed. Indian parties have been arrested near the northern extremity of Aksaichin in 1958 and in the Spanggur area in 1959.

**The Punjab-Tibet Frontier:** This is about 70 miles in length. In the southern part of this sector, some Chinese maps show the boundary four to five miles west of the traditional boundary which is the watershed between the Spiti and Para Chu rivers. In 1956 and 1957, Chinese parties visited this area.

**Himachal Pradesh and Uttar Pradesh boundary with Tibet:** It is about 320 miles long and follows well-defined watersheds. In Himachal Pradesh it is the watershed between the eastern and western tributaries of the Sutlej, and in Uttar Pradesh that between the Sutlej on the one hand and the Kali, Alaknanda and Jadhganga on the other. The six passes on the watershed—Shipki, Mana, Niti, Kungri Bingri Darma, and Lipu Lekh—have been mentioned in the 1954 Agreement as passes between India and China. The Great Himalayan Range in this region lies in some places thirty to forty miles south of the watershed. The Nilang-Jadhanga area, about a hundred square miles in area, has always been Indian territory.

**Sikkim-Tibet Frontier:** This was defined in the Anglo-Chinese Convention of 1890, and was later, in 1895, demarcated on the ground. All Chinese maps seem to show this boundary correctly.

**Bhutan-Tibet Frontier:** This is a customary boundary and follows the crest of the Himalayan Range for about three hundred miles. Chinese maps level out Bhutan in two sectors in the north and include a considerable part of south-eastern Bhutan in Tibet.

**McMahon Line:** From the eastern border of Bhutan to a point near the Talu pass, the frontier is a customary one which was defined in detail at the Simla Conference of 1914. The line follows the northern watershed of the Brahmaputra except where the Lohit, Dihang, Subansiri and the Namjang rivers break through. This watershed is for its greater part the Himalayan Range and in other places the highest range in the area. In one place the Line departed from the watershed to leave two sacred lakes, the village of Migyitun and a pilgrimage route in Tibet.

The line shown on Chinese maps includes in Tibet nearly 32,000 square miles of our territory in this area. This piece of territory comprises the whole of three Divisions of the North-East Frontier Agency—Kameng, Subansiri and Siang—and the major part of the fourth—the Lohit Frontier Division. In the extreme west it includes a belt of the Assam plains also.

### INDIAN CASE

Having traced the course of the customary frontier between India and China we may next describe the Indian point of view.

Briefly it is this.

India's traditional frontier with China is well known being based partly on treaty, partly on custom and partly on agreement.

The present controversy arose because, the Chinese Government laid claim for the first time to extensive areas of Indian territory in the Chinese Prime Minister's letter of 8th September 1959.

The tension on the India-China border increased in 1959 and 1960 because Chinese forces had been pushing forward to assert their claims, and this has resulted in clashes involving the death of Indian personnel.

The Government of India have stated that in spite of recent Chinese provocations they will always explore the possibilities of a peaceful settlement. But they cannot accept the Chinese contention that the entire India-China frontier is undelimited. Negotiations on this basis are unacceptable to the Government of India. But they are prepared to discuss with the Chinese Government existing disputes and such minor rectifications of the frontier as may be considered necessary by agreement.

Though this is not part of the Indian case it may be added that the precise nature of the Chinese claims have not been stated by Chinese authorities. They can only be inferred from Chinese maps published from time to time.

The entire length of this border has been either defined by treaty or recognized by custom or by both, and until the present controversy no Chinese Government had ever protested against the exercise of jurisdiction by the Government of India up to the customary border.

The Government of the People's Republic of China contend in their letters that this boundary is entirely undelimited. This is wholly incorrect. The traditional border has been well-known for centuries. It follows the geographical principle of the watershed which is in most places the crest of the Himalayan mountains.

Moreover, in most parts the boundary has the sanction of specific international agreements.

### NORTH-EASTERN FRONTIER

In the north-east, the traditional boundary was formalized at a Tripartite Conference held in

Simla from October 1913 to July 1914 and attended by the Plenipotentiaries of the Governments of India, Tibet and China. The Indian, Tibetan and Chinese Plenipotentiaries had equal status. The boundary between India and Tibet in the sector east of Bhutan was confirmed by an exchange of notes between the Tibetan and Indian representatives on 24th and 25th March 1914. The boundary was delineated on two sheets of a large-scale map of the north-east frontier. Two copies of the map were signed and sealed by the Indian and Tibetan representatives. The line was drawn after full discussion and later re-affirmed by a formal exchange of notes. The Indo-Tibetan boundary line as agreed upon by the Indian and Tibetan Plenipotentiaries was incorporated on the map attached to the draft convention and was never challenged by the Chinese representative at that time or afterwards.

There is nothing to indicate that the Tibetan authorities were, in any way, dissatisfied with the delineation. On the other hand, Lonchen Shatra, the Tibetan Plenipotentiary, stated explicitly in the letters exchanged that he had received orders from Lhasa to agree to the boundary as marked on the map.

There is no doubt that the McMahon Line (so called after McMahon, the British representative at the Conference) merely confirmed the natural, traditional, ethnic and administrative boundary in the area. It runs mostly along the crest of the High Himalayan Range which forms the natural frontier between the Tibetan plateau in the north and the submontane region in the south. The Monba, Aka, Dafia, Miri, Abor and Mishmi tribes, who inhabit the area, are of the same ethnic stock as the other hill-tribes of Assam and have no kinship with the Tibetans. The Tibetans refer to these tribes as Lopus—southern barbarians beyond the pale.

It has to be appreciated however that boundaries between any two countries are not determined by ethnic affiliations of people living in frontier regions. It is also possible that people of the same racial stock live on either side of a border. India is a multi-national State in which many racial minorities enjoy rights of citizenship. In this context, it is relevant to mention that there are thousands of Indian citizens of Tibetan origin in our frontier areas. The fact is that the ethnic composition of frontier peoples is not a determining factor.

The important consideration to bear in mind is that Tibetan authorities had not exercised jurisdiction at any time in this area. On the other hand, the exercise of jurisdiction by the Government of India has been long and continuous.

Both the Simla Convention and the map attached to it were signed by Ivan Chen, the Chinese Representative. Although the Chinese Government later repudiated his signature, the objections to the Simla Convention listed in their memorandum of 25th April, 1st May and 13th June 1914 and 30th May 1919 were solely in regard to the boundary between Inner Tibet and China and between Inner Tibet and Outer Tibet. China neither protested against the boundary between India and Tibet nor did she seek modification of it after the Simla Convention. It is significant too that the Chinese Government agreed in 1956-57 to consider the eastern sector of the McMahon Line, which for about 120 miles forms the boundary between Burma and China, as the traditional boundary between the two countries.

#### CENTRAL SECTOR

The central sector of the boundary between Tibet and India is the frontier of Uttar Pradesh, Himachal Pradesh and the Punjab States in north India. The boundary between Uttar Pradesh and Tibet follows the watershed between the Sutlej on the one hand and the Ganges (the Kali, the Alaknanda and the Jadhganga) on the other. In this sector, the High Himalayan Range, with passes at a height of about 17,000 feet, runs 30 miles south of the water-parting, which is a lower range easily crossed from the Tibetan plateau. However, this watershed has been the traditional and well-known boundary. Revenue

records of the Garhwal district as far back as 1850 establish this. Even Chinese maps upto 1958 showed the watershed as the frontier. The Nilang-Jadhang area, Bara Hoti, Laphthal and Sangcha Malla, which according to the contention of the Chinese Government lie in Tibet, are in fact well on the Indian side of the watershed.

Nilang-Jadhang is an area of about 700 square miles north of the main Himalayan range but south of the watershed. Bara Hoti, a small area of about 1½ square miles, also lies between the highest range of the Himalayas and the main watershed. Laphthal and Sangcha Malla are south-east of Bara Hoti, in Almora district in Uttar Pradesh. The boundary between Himachal Pradesh and Tibet is the water-parting between the eastern and the western tributaries of the Sutlej; and the boundary between the Punjab and Tibet is the major watershed between the Pare Chu and the Spiti river systems.

#### LADAKH

The boundary of Jammu and Kashmir with Sinkiang and Tibet is about 1,100 miles in length. Of this the frontier of Ladakh (which is part of Jammu and Kashmir) forms nearly two-thirds.

This boundary between Ladakh and Tibet, long sanctified by custom, was reaffirmed by the Treaty of 1842 signed by the representatives of Kashmir on the one hand and the Dalai Lama and the Emperor of China on the other. The Tibetan text of the treaty confirms that China was a party to it. It is true that the treaty did not define the boundary but referred merely to the "old established frontiers". This was because these frontiers were well-known and did not require any formal delimitation. In 1847 the Chinese Government informed the British Government that as the boundary was sufficiently and distinctly fixed, there was no need for additional measures for fixing them. The area was surveyed by Indian officials and, once a detailed first-hand knowledge was obtained of the region, official Indian maps began to show the boundary with precision. Even an official Chinese map of 1893 showed the boundary in this area as depicted in official Indian maps today.

For many years after 1949, when the People's Republic was established, there was no reason to believe that the Chinese authorities either were unaware of the traditional boundary or disputed its alignment. In 1950 the Chinese Government expressed their gratification over the desire of the Government of India "to stabilize the Chinese-Indian border" and the Government of India replied that "the recognized boundary between India and Tibet should remain inviolate". The Chinese Government questioned neither the location nor the recognition of this boundary, and the Government of India saw no reason to assume that there was any doubt regarding the border. On various occasions in 1951 and 1952, Indian interests in Tibet were discussed but the Chinese Government never suggested that there was any frontier issue to be negotiated.

The only cause for doubting whether the Chinese authorities accepted the traditional boundary was the fact that different alignments were being shown on Chinese maps. The alignments included about 36,000 square miles of territory on the north-eastern frontier and an area of about 15,000 square miles in north-eastern Ladakh within China.

#### COLOMBO PROPOSALS

"1. The Conference considers that the existing *de facto* cease fire period is a good starting point for a peaceful settlement of the Indian-Chinese conflict.

"2. (a) With regard to the Western Sector, the Conference would like to make an appeal to the Chinese Government to carry out their 20 kilometres withdrawal of their military posts as has been proposed in the letters of Prime Minister Chou En-lai to Prime Minister Nehru on November 21 and November 28, 1962.

- (b) The Conference would make an appeal to the Indian Government to keep their existing military position.
- (c) Pending a final solution of the border dispute, the area vacated by the Chinese military withdrawals will be a demilitarised zone to be administered by civilian posts of both sides to be agreed upon, without prejudice to the rights of the previous presence of both India and China in that area.

"3. With regard to the Eastern Sector, the Conference considers that the line of actual control in the areas recognised by both the Governments could serve as a cease fire line to their respective positions. Remaining areas in this sector can be settled in their future discussion.

"4. With regard to the problems of the Middle Sector, the Conference suggests that they will be solved by peaceful means, without resorting to force.

"5. The Conference believes that these proposals, which could help in consolidating the cease fire, once implemented, should pave the way for discussions between representatives of both parties for the purpose of solving problems entailed in the cease fire position.

"6. This Conference would like to make it clear that a positive response for the proposed appeal will not prejudice the position of either of the two Governments as regards its conception of the final alignment of the boundaries."

#### Clarifications

On a request from the Government of India, the Ceylon Prime Minister, Mrs. Bandaranaike, Mr. Ali Sabry of the U.A.R. and Mr. Ofori Atta of Ghana gave clarifications of paragraphs two, three and four of the Colombo proposals during their negotiations in New Delhi from January 10 to 15, 1963. The clarifications were also conveyed to the Chinese Government by the Ceylon Premier. Following is the text of the clarifications:

*Western Sector (Para 2 of the proposals).*

(i) The withdrawal of Chinese forces proposed by the Colombo Conference will be 20 kilometres as proposed by Prime Minister Chou En-lai to Prime Minister Nehru in the statement of the Chinese Government dated 21st November and in Prime Minister Chou En-lai's letter of 28th November 1962, i.e., from the line of actual control between the two sides as of November 7, 1959, as defined in Maps III and V circulated by the Government of China.

(ii) The existing military posts which the forces of the Government of India will keep to will be on and up to the line indicated in (i) above.

(iii) The demilitarised zone of 20 kilometres created by Chinese military withdrawals will be administered by civilian posts of both sides. This is a substantive part of the Colombo Conference proposals. It is as to the location, the number of posts and their composition that there has to be an agreement between the two Governments of India and China.

*Eastern Sector (Para 3 of the proposals).*

The Indian forces can, in accordance with the Colombo Conference proposals, move right up to the south of the line of actual control, i.e., the McMahon Line, except for the two areas on which there is difference of opinion between the Governments of India and China. The Chinese forces similarly can move right up to the north of the McMahon Line except for these two areas. The two areas referred to as the remaining areas in the Colombo Conference proposals, arrangements in regard to which are to be settled between the Governments of India and China according to the Colombo Conference proposals, are Che Dong or the Thagla ridge area and the Longju area, in which cases there is a difference of opinion as to the line of actual control between the two Governments.

*Middle Sector (Para 4 of the proposals).*

The Colombo Conference desires that the *status quo* in this sector should be maintained and neither side should do anything to disturb the *status quo*.

#### India Accepts

On Jan. 24, 1963, Mr. Nehru announced in the Lok Sabha that India would accept *in toto* the Colombo proposals as clarified by the delegations of Ceylon, the United Arab Republic and Ghana during their talks with the Union Govt. in Delhi on Jan. 12 and 13, 1963. The proposals were thoroughly discussed in Parliament. Since they were on the whole in conformity with her own stand on the issues involved and as proof of her sincere desire to co-operate with the Colombo Conference and make its initiative a success, the Lok Sabha approved the Govt. policy on the proposals. India accepted the proposals *in toto* and the Prime Minister of Ceylon was informed accordingly.

#### China Rejects

The Chinese Government, however, have rejected the essential features of the Colombo proposals. They are opposed to the proposal that the demilitarised area in the Western Sector should have civilian posts of both India and China. They insist that they alone should have

the right to re-establish the seven posts that they claim they maintained in this area prior to Sept. 7, 1962 and that there should be no Indian presence of any kind in this demilitarized zone. And, in the Eastern Sector, contrary to the Colombo proposals, they insist that Indian troops should not move up to the frontier. By taking up this attitude, they are clearly flouting the Colombo Conference powers, and spurning their efforts to promote a settlement.

#### CHINA'S BORDER AGREEMENT WITH OTHER COUNTRIES

China has so far concluded border agreements with Burma, Nepal, Outer Mongolia and Pakistan. All these agreements are a post-1959 feature. The manner of reaching these agreements and their timing lead strongly to the suspicion that these agreements have been concluded not out of any desire for peaceful settlement of disputes with neighbours, but as instruments in China's strategy of isolating India. It could not be without significance that China made serious moves for border agreements about the same time as she made her big territorial claims on India in September 1959.

Another noteworthy feature common to most of China's border agreements is the leisurely way China initially set about negotiating them

until 1959-60, when the dispute with India came to a head. The pace of negotiations was markedly accelerated thereafter. The talks with Burma for a border pact were begun in 1956 and after dragging on for nearly four years, were concluded in January 1960, about four months after China openly laid claim to large Indian territory. With Nepal, the Sino-Nepalese Boundary Committee was set up on August 11, 1960. On October 5, 1961 the boundary treaty was concluded.

The same was the case in respect of the so-called Sino-Pakistan "border treaty". The Pakistan Government had sent the Chinese their first note on this subject on March 28, 1961. The Chinese authorities replied to this after nearly a year, that is, early in February 1962. On May 3, 1962, the two Governments announced that they had agreed to conduct negotiations. An "agreement in principle" was announced by the two Governments on December 26, 1962 on the eve of the first round of Indo-Pak talks to discuss Kashmir and other related matters. The agreement itself was signed on March 2, 1963 in Peking.

China's border pacts are but another phase of her aggressive diplomacy. The aim of this strategy is to isolate and weaken India, so that China can lord it over the smaller nations of Asia.

## LAC INDUSTRY

The final estimate of production of the 1966 the preliminary estimate of 7,170 tonnes. The (1961-65) average production was 6,480 tonnes.

katki lace crop, issued by the regional office of lac development, was 6,325 tonnes only, against lac production in 1965 and 1964 was 6,230 tonnes and 2,780 tonnes respectively. The five-year

## MINES AND MINERALS

**Mineral Production (1966):**—The total value of mineral production in the country (excluding Goa) during 1966 was higher by 4.8 per cent at Rs. 2,471 million as against Rs. 2,357 million in the previous year, according to the Indian Bureau of Mines. This estimate excludes the value of petroleum, minor minerals and

minerals declared as prescribed substances under the Atomic Energy Act, 1948.

Coal and lignite constituted the leading group with an output of 67.97 million tonnes and 2.57 million tonnes respectively.

**Production:** (ferrous group): Chromite

78,000 tonnes; iron ore 19.97 million tonnes; manganese ore 1,598,000 tonnes.

**Production:** (non-ferrous): Bauxite 746,000 tonnes; copper ore 481,000 tonnes; gold 3,740 kilograms; silver 1,220 kilograms; ilmenite 30,000 tonnes; lead concentrates 5,151 tonnes and zinc concentrates 8,900 tonnes.

## PORTS

**Gujarat:** The total traffic at the ports of Gujarat increased from 32,62,759 tonnes in 1965-66 to 35,70,792 tonnes in 1966-67 thus recording a net increase of 9.5 per cent over the previous year.

During 1966-67, both exports and imports showed a rise, of 1,64,358 tonnes and 1,43,675 tonnes, respectively.

## RUBBER INDUSTRY—(Contd.)

**Rubber Industry:**—According to official statistics, the actual production of all rubbers in India during the period April to January was higher during 1966-67 than during the same period of 1965-66 or of 1964-65.

Production for 10 months  
(April-January)

## TEA INDUSTRY—(Contd.)

**Production & Export:**—The achievement of India's tea industry has indeed been magnificent with a record production of 375 million kg. in 1966.

From this performance it appears that the

ambitious revised target of 420 million kg. for the 1970-71 will be comfortably achieved. There is always, however, the proviso about whether other unforeseen hurdles would come in the way.

The revised export target for the Fourth Plan end is 240 million kg. Last year the export achievement was less than 200 million kg., and a watch is being kept on the declining trend since devaluation.

## POSTS AND TELEGRAPHS—(Contd.)

**New Postal Rates:** The revision of postal and tele-communication tariffs proposed in the 1967-68 Budget, with existing tariffs upto June 15, 1967 in brackets is as follows:—

Registered newspapers up to 100 grammes 5 paise (2 P), between 101 and 250 gr. 10 paise (3 P for 101 to 200 gr.), additional 250 grammes 5 paise (3 P per additional 200 gr.).

Parcels per 400 gr. 65 paise (60 paise).

Registration fee 60 paise (55 paise), express delivery fee 15 paise (13 P).

Air surcharge on packets, including registered newspapers, per 10 grammes five paise (4 P), book packets up to 100 gr. 10 Paise (8 P), per additional 50 gr. 5 paise (3 P), printed books per 50 gr. 5 paise (5 P up to 50 gr. and 3 P per additional 25 gr.).

Insurance fee for value up to Rs. 100 : 45 paise (40 P), per additional Rs. 100 up to Rs. 5,000 25 paise (20 P), per additional Rs. 1,000 up to Rs. 10,000 one rupee (same).

Telegrams : non-press inland telegrams up to eight words one rupee for ordinary and Rs. 2

for express (same rate for first 10 words), per additional word 10 paise for ordinary and 20 paise for express (same), greetings telegrams up to 8 words 80 paise for ordinary and Rs. 1.60 for express (75 paise and Rs. 1.50 respectively), per additional word 10 paise and 20 paise (same). Teleprinter annual rental Rs. 1,500 (Rs. 1,200), rental for part-time telegraph—teleprinter circuit (other than to newspapers and agencies); for first hour 50 per cent of full-time rental when circuit is not required for more than 8 hours (1/6 full-time rental); for per additional hour full-time rental (1/24 full-time rental).

## A TOURIST'S GUIDE—(Contd.)

### NEW INDIA

**New Townships and Industrial colonies:** Large scale industrialisation has brought in its wake construction of new townships and colonies. River valley schemes, steel and fertiliser plants, refineries, research laboratories, technical Institutes... all were allotted freshly developed areas and townships. In the private sector too, new units came to be established with colonies for workers and staff. Gandhidhams and Gandhinagars have sprung up at many places; Gandhinagar, Kasturbadham, Pantnagar, Vallabh Vidyanagar, Tilaknagar, Tatanagar, Ogalewadi are some of the new townships, having "national" names.

**Jamshedpur:** In Bihar the first steel city, bearing the founder's name, with Tatanagar as the name of the railway station nearby, is an ideal new town, complete with all modern requirements. Health, sanitation, education are all looked after by the private sector industry and all services run efficiently.

**Ogalewadi:**—Near Karad, near the confluence of the Krishna and the Koyna (Dist. Satara).

Ogalewadi is the glass-town founded by one of the pioneering industrialists, Mr. Ogale. The activities at present include enamelling, making of hurricane lanterns, and safety stoves. Another unit for making electrical equipment is recently added.

**Tatanagar:**—see *Jamshedpur*.

**Vallabh Vidyanagar:**—Near Anand, (Dist. Kaira) is the seat of Sardar Vallabhbhai Patel University, with arts & science, engineering, agricultural, teachers' training, colleges on the extensive campus. Some industrial units (pre-stressed concrete, electrical wire) are also working in the vicinity. The township and the educational institutes, including hostels, guest house and staff quarters are on an ideally laid out plan. There is a railway station (Western) with the same name nearby; but fast trains do not stop there and Anand is a more convenient station that way for this University town.

## FOURTH PLAN—(Contd.)

### Review 1966-67

Several vital targets in the annual Plan for 1966-67, the first year of the Fourth Plan, have not been reached despite increased financial expenditure.

The latest official data on the progress of the 1966-67 Plan show that apart from the lag in agriculture, production of fertilisers, steel, aluminium, cement and coal fell short of the targets.

Shortfalls in respect of railway freight traffic, irrigation and power targets are also indicated.

Production in some industries, such as textile machinery, railway wagons and castings, actually declined during the year.

The main reasons for the physical shortfalls are stated to be the recurrence of drought and the steep rise of 16.5 per cent in the general price level in 1966-67.

Against the original Plan outlay of Rs. 2,092 crores, the expenditure in 1966-67 is estimated

at Rs. 2,228 crores. But most of the increase in expenditure was due to devaluation.

The outlay of Rs. 2,082 crores, when expressed in post-devaluation terms, amounted to Rs. 2,250 crores. Thus, the estimated expenditure of Rs. 2,228 crores is actually somewhat lower than the cost of the original Plan.

Despite the step-up in the Plan expenditure, actual achievements were lower. Drought not only affected agricultural production but also caused a rise in prices and wages, which in turn, affected costs and the demand for goods.

Food production in 1966-67, estimated at 76 million tonnes, was 21 million tonnes less than the estimated production potential of 97 million tonnes. Drought also affected production of other agricultural commodities and cash crops.

Consumption of nitrogenous fertilisers during the year was 800,000 tonnes against the targeted one million tonnes.

The fall in agricultural production also led to reduced output in agro-based industries like jute, textiles, cotton textiles, sugar and vanaspathi.

The output of steel ingots rose marginally from 6.2 million tonnes in 1965-66 to 6.4 million tonnes in 1966-67, against the target of seven million tonnes.

Similarly, cement production at 11 million tonnes was just at the previous year's level, while the target had been fixed at 12.5 million tonnes.

Although considerable importance was attached to aluminium as a medium of import substitution, its production at 88 million tonnes was markedly lower than the target of 100 million tonnes. In 1965-66 aluminium output was 69 million tonnes.

Owing to the slow pace of industrial growth, the freight traffic of the railways, also showed a small increase from 203 million tonnes in 1965-66 to 207 million tonnes in 1966-67, against the target of 215 million tonnes.

Because of the stagnation in industries and railway traffic, coal output in 1966-67 remained almost at the previous year's level of 68 million tonnes.

## MAHARASHTRA—(Contd.)

### TATA PROJECTS

The hydro-electric undertakings in the State are the three schemes developed and brought into operation by Tata Sons, Ltd., and continued under their management until 1929, when they were transferred to the management of the Tata Hydro-Electric Agencies, Ltd., in which Messrs. Tata Sons retain a majority interest. These undertakings are :—

- The Tata Hydro-Electric Power Supply Company, Ltd. Supply started in 1915.
- The Andhra Valley Power Supply Company, Ltd. Supply started in 1922.
- The Tata Power Company, Ltd. Supply started in 1927.

The three Hydro-Electric Companies are interconnected with Chola Steam Station of the Central Railway and the newly commissioned Koyna Hydro generating station of Maharashtra State which feeds bulk power to the Tata system

at Trombay over 220 kV transmission lines. Together they are operated as a Hydro-Thermal system under the co-ordinated control of the Hydro Companies.

The three Hydro Companies have constructed a modern Steam Thermal Station of 338 MW capacity at Trombay which is also inter-connected to the system.

The Tata Hydro-Electric System serves an area in Maharashtra State of more than 2,072 sq. kilometres.

Electric service is rendered to the textile mills and other industries of Bombay and the suburban areas, to local authorities, and, in bulk for retail distribution, to the electrical undertakings including the State Electricity Board, supplying Greater Bombay, Poona and ten other localities within the area.

The transmission net work of the Tata system consists of 1,013 circuit kilometres of 100,000-volt overhead lines and 24 circuit kilometres of 100

KV gas filled underground cables and the distribution network of 336 circuit kilometres of 22,000-volt overhead as well as 208 circuit kilometres of 22,000-volt and 192 circuit kilometres of 6,600-volt underground cables. There are also 44 circuit kilometres of 6,600-volt overhead lines.

Substantial additions to the transmission and distribution network are expected to be made during the next few years.

During 1965 the peak demand on the Tata Rly. System reached a figure of 694 MW.

The sales by Tatas during 1964-65 was 3,393 million units and the purchase from Koyna to supplement Hydro system during the year was 1,370 million units.

NOTE : Because of security reasons, we have been asked not to publish any information relating to location of electricity generating Plants.

## RAJASTHAN—(Contd.)

### CENTRAL MECHANIZED FARM, SURATGARH

The 30,000-acre Central Mechanized Farm at Suratgarh, in the Ganganagar district of Rajasthan, is the first State-run farm in the country. Started with the three-fold objective of producing improved seeds, raising pedigree breeds of cattle, sheep and poultry and developing orchards, the farm has made considerable progress towards realising these objectives.

The farm has a fleet of about 100 tractors, 60 harvester combines, and various types of other modern machines for farm operations like winnowing, grading, harrowing, seed-drilling, etc. Most of this machinery has come as gift from the Soviet Union. A workshop, with a foundry, helps to maintain, repair and overhaul the machines.

Despite recurring floods and non-availability of sufficient water, the Farm has established high records of productivity. It grows mainly food crops like wheat, jowar, paddy and bajra and cash crops like cotton, oilseeds and sugarcane. Under favourable conditions, the average yield

per acre from a 15-acre plot has reached : wheat 44.5 mds.; paddy 43 mds.; jowar and gram about 34 mds.; cotton 26 mds.; sugarcane 824 mds. The highest yield per acre of sugarcane has reached 1,400 mds.

The area under Kharif and Rabi crops in 1964-65 was 8,273 and 17,560 acres respectively. The Farm has supplied 17,392 quintals of pure pedigree (nucleus) seeds to various States in 1966. The Farm has also recently started multiplying Sonora-64, a high-yielding variety of Mexican wheat, in an area of 911 acres. During the last 10 years, the Farm has produced food-grains, oilseeds, cotton, sugarcane, etc., of the value of over Rs. 300 lakhs.

Orchards :—Upto August 1964, the Farm had established orchards over an area of 440 acres and raised over 36,000 plants of various fruits. It has developed an area of 244 acres under orchards and established a nursery of about 11 acres which raises saplings of fruit and forest plants.

Animal Husbandary :—The Farm has established a small dairy with 26 cows, two bulls

and 50 calves. The Sheep-rearing Section has 212 ewes, 7 rams and 119 young stock. There are 365 birds, including 238 White Leghorn hens and 19 cocks in the Poultry Section.

Afforestation :—Under its afforestation scheme, the farm has by now grown about, 1,00,000 sheesham, over 5,00,000 babul, 1,000 eucalyptus, 1,000 bottle-brush and 2,000 mulberry trees. These have not only relieved the drabness of the area, but have also helped in checking the wind velocity and conserving moisture in the soil.

Irrigation :—The Farm gets its irrigation supplies from the Bhakra Irrigation system. The farm has taken steps to construct protection bunds against floods.

Jetsar Farm :—The second 30,000-acre Mechanized Farm at Jetsar, near Suratgarh, was started in May 1964. The Jetsar Farm is being developed to the extent possible with the available non-perennial water supply from the Rajasthan Canal. Kharif is the main crop season, the major crops being cotton, groundnut, jowar and bajra.

## SPORTS

The sports come within the purview of the Ministry of Education.

An advisory body, called the All India Council of Sports, composed of 20 persons eminent in the field of sports and games advises the Ministry in all matters relating to development of Sports in the country.

The All India Council of Sports has been reconstituted for a period of 2 years with effect from 16-7-1965 with Gen. K. M. Cariappa as President and B. P. Bagchi, Jt. Secretary, Ministry of Education, as Secretary.

The Government of India have set up a National Institute of Sports at Patiala to provide adequate facilities for the training of coaches of the highest calibre in various games and sports.

### TOURNAMENTS

Below we give the results of the national tournaments and principal sporting events of the year 1966-67 :

#### Athletics

##### Men's Events

100 metres : R. B. Tawde (Bihar) ; 200 metres : B. Thomas (Madhya Pradesh) ; 400 metres : P. C. Ponnappa (Mysore) ; 800 metres : Jarnail Singh (Punjab) ; 1,500 metres : E. Sequeira (Maharashtra) ; 3,000 metres steeplechase : Gurdiyal Singh (Delhi) ; 5,000 metres : Edward Sequeira (Maharashtra) ; 10,000 metres : Maqbool Ahmed (Andhra) ; 110 metres hurdles : Nirmal Singh (Punjab) ; 400 metres hurdles : C. H. Shobhanachalam (Madras) ; Long Jump : P. Bannerjee (W. Bengal) ; High Jump : R. M. David (Madras) ; Hop, step and jump : L. R. Beedue (Madras) ; Pole Vault : W. A. Naqvi (Bihar) ; Javelin Throw : D. Ghosh (Bengal) ; Discus Throw : Bahadur Singh (Bihar) ; Shot Put : Jagaraj Singh (Bihar) ; Hammer Throw : Mohan Singh (Rajasthan) ; 4 × 100 metres relay : Mysore 1 ; 4 × 400 metres relay : Mysore 1 ; Decathlon : S. Puttur (Maharashtra) ; 20 kilometres walk : V. Sen (W. Bengal) ; 50 kilometres walk : A. N. Shome (W. Bengal) ; Marathon : S. Ghadigaonkar (Maharashtra).

#### Women's Event

100 metres : Chitra Kandukur (Maharashtra) ; 200 metres : Georgina Wakefield (Maharashtra) ; 800 metres : Palmira Ferdinand (Maharashtra) ; 4 × 100 metres relay : Maharashtra 1 ; Discus Throw : Kamallesh Chatwal (Delhi) ; Long Jump : Christine Forage (Maharashtra) ; Pentathlon : K. M. Rosamma (Madras) ; Team Championship : Maharashtra.

#### Aquatics

Men : 100 Metres freestyle : Ramchandra Singh (Services) ; 100 metres backstroke : Chandram Singh (Services) ; 100 metres butterfly : Arun Shaw (Railways) ; 100 metres breaststroke : Ramdeo Singh (Services) ; 200 metres backstroke : Chandram Singh (Services) ; 200 metres freestyle : Ramchandra Singh (Services) ; 200 metres butterfly : Thammu Singh (Services) ; 200 metres breaststroke : Ramdeo Singh (Services) ; 1,500 metres freestyle : Ram Singh (Services) ; 4 × 100 metres freestyle relay : (Services) ; 4 × 200 metres freestyle relay : (Services) ; High Board Diving : Sohan Singh

(Services); Spring Board: Hardial Singh (Services); Water Polo: Railways.

Women: 100 metres freestyle: Rima Dutta (Rajasthan); 100 metres backstroke: Rima Dutta; 100 metres breaststroke: Rima Dutta; 200 metres freestyle: Rima Dutta; 4 x 100 metres relay: Delhi.

#### Badminton

Men's Singles: Dinesh Khanna (Punjab); Men's Doubles: Khor Cheng Chye and Lee Guan Choong (Malaysia); Mixed Doubles: Nandu Natekar and Manda Kelkar (Maharashtra); Women's Singles: Sarojini Apte (Railways); Women's Doubles: Shobha Moorathi and Manda Kelkar (Maharashtra); Juniors: Ravi Dhingra (U.P.)

#### Basketball

Men: Services.  
Women: Maharashtra.

#### Billiards

Billiards: Wilson Jones.  
Snooker: Thomas Monteiro.

#### Boxing

Light-flyweight: T. R. Velu (Services); Flyweight: C. Narayana (Services); Bantamweight: M. Velu (Services); Featherweight: Hav. D. Swamy (Services); Lightweight: Hav. J. B. Thapa (Services); Light-selter weight: J. Irani (Maharashtra); Welterweight: Nk. K. S. Bhosle (Services); Light-middleweight: Nk. Gyan Singh (Services); Middle weight: Piara Singh (Services); Heavyweight: Hav. Inder Singh (Services); Light-heavyweight: Ajit Singh (Services).

#### Bridge

Team-of-four duplicate: Dr. Narang's team, Delhi; Master Pairs: S. K. Kantha and H. Paul (Calcutta); Team of four Progressive: Kumars Four (Calcutta).

#### Cricket

The series between India and West Indies resulted in two victories for the visiting team and one draw.

Principal scores:

At Bombay (First Test): India 296 (C. G. Borde 121, S. A. Durani 55, Nawab of Pataudi 44; Hall 2/54, Griffith 3/68, Sobers 3/46, Holford 2/68) and 316 (Jaisimha 44, Baig 42, Nawab of Pataudi 51, B. K. Kunderan 79; Sobers 2/79, Griffith 1/53, Holford 3/94, Gibbs 4/67) lost to West Indies 415 (Hunte 101, Lloyd 82, Holford 80, Sobers 50, Hendricks 48; Chandrasekar 7/157, Venkataraghavan 2/120, Durrani 1/83) and 192 for 4 (Hunte 40, Lloyd 78 not out, Sobers 53 not out).

At Calcutta (Second Test): West Indies 390 (Kanhai 90, Sobers 70, Hunte 43; Surti 2/106, Chandrasekar 3/107, Bedi 2/92, Jaisimha 1/11)

beat India 167 (Kunderan 90, Jaisimha 87; Sobers 3/42, Gibbs 5/51, Hall 1/32) and 178 (Hauumantsingh 87, Surti 81, Jaisimha 81; Hall 1/35, Sobers 4/56, Gibbs 2/36, Lloyd 2/23).

At Madras (Third Test): India 404 (F. M. Engineer 109, C. G. Borde 125, Surti 50 not out; Hall 2/68, Griffith 1/96, Sobers 2/69, Gibbs 3/87, Hunte 1/25, Bynoe 105) and 323 (Wadekar 67, Borde 49, Hanumant Singh 50, Subramaniam 61; Hall 2/67, Gibbs 4/96, Griffith 4/61) drew with West Indies 405 (Sobers 95, Hunte 49, Bynoe 48, Kanhai 77; Chandrasekar 4/130, Surti 3/68, Bedi 1/55, Prasanna 2/118) and 270 for 7 (Sobers 74 not out, Griffith 40 not out; Bedi 4/81, Prasanna 3/106).

#### Ranji Trophy

Bombay beat Rajasthan in the final.  
Duleep Trophy: South Zone  
Irani Trophy: Rest of India  
Rohinton Baria Trophy (Inter-University): Osmania.  
Cooch-Bihar Trophy (Schools): West Zone.

#### Cycling

Men: 1,000 metres time trial: Dalbir Singh Gill (Punjab); 1,000 metres sprint: Kersi R. Batiwalla (Maharashtra). 4,000 metres team pursuit: (Services); Team trial championship: (Services).

Women: 2,000 metres lap race: Miss Zarin M. Jasawalla (Maharashtra).

#### Football

National Championship: Andhra. Rover's Cup: Mohun Bagan. F.A. Shield: Mohun Bagan. Durand: Gorkha Regiment.

#### Golf

Hashoishi (Japan).

#### Hockey

National: Railways and Madras joint winners; Aga Khan Cup: Punjab Police. Beighton Cup: East Bengal.

#### Kabbaddi

Men: Railways.  
Women: Maharashtra.

#### Kho Kho

Men: Bombay.  
Women: Baroda.

#### National Chess

Rusi Madon.

#### Wrestling

Middleweight: Amarsingh (M.P.); Light-heavy: Makhardwaj Ray (Services); Heavyweight: Amarsingh (M.P.); Welter: Gayaprasad (Railways); Bantamweight: Bishamber Singh (Railways); Featherweight: Shamlal

(Railways); Lightweight: Rajnarayan (D.C.M.); Mosquito weight: Jagdish (Delhi); Flyweight: Maruti Adker (Maharashtra); Hind Kesari: Hazrat Patel (Maharashtra).

#### Weight-lifting

Lightweight: L. K. Das (Railways); Middleweight: Raghbir Singh (Services); Heavyweight: Balbir Singh (Delhi); Lt. Heavy: M. R. Roy (Services); Team Championship: (Services); Bharat Shree: T. K. Mathai (Services).

#### Table Tennis

Men's Singles: F. R. Khodaiji (Maharashtra); Men's Doubles: N. Nicolay & M. Remuaid. (U.S.S.R.); Mixed Doubles: N. Nicolay and Miss B. Zaimu (U.S.S.R.).

Women's Singles: Usha Sunderraj (Madras); Women's Doubles: B. Zaimu and Bella (U.S.S.R.).

Boys' Singles: S. A. Mehta (Maharashtra). Boys' Doubles: S. Mehta and A. Buta (Maharashtra). All three team championships won by Maharashtra.

#### National Tennis

Men's Singles: Premjit Lal. Men's Doubles: Krishnan and Mukherjee. Mixed Doubles: A. Metravelli and Ivanova (U.S.S.R.). Women's Singles: Ivanova. Women's Doubles: Ivanova and Abzhandaze (U.S.S.R.). Juniors' Singles: Anand Amrit Raj. Doubles: Ajit Ranade and S. S. Menon.

Asian Championships: Men's Singles: A. Metrevelli (U.S.S.R.); Men's Doubles: T. Koch and E. Mandarino (Brazil). Mixed Doubles: A. Metrevelli and Ivanova. Women's Singles: Abzhandaze (U.S.S.R.).

#### Volleyball

Men: Services.  
Women: Andhra Pradesh.

#### Bombay Races

1,000 Guineas: J. D. Banatwalla's 'River Haven'; 2,000 Guineas: Suresh Mahindra's 'Multirosa'; Indian St. Leger: Mrs. Mary H. Wadia's 'Nijinsky'; Oaks: Suresh Mahindra's 'Multirosa'; Derby: Mrs. Mary H. Wadia's 'Nijinsky'.

#### Poona Races

Turf Club Cup: Mr. & Mrs. T. G. Gaokar's 'Monitor'.

#### Calcutta Races

Calcutta Derby: H. S. Grewal's 'Ramkripal'. Turf Invitation, Invitation Cup: C. K. Mehtab's 'Prince Regent'.

#### Madras Races

South India Derby: S. K. Sunderram's 'Grand Jury'.

#### Rugby

Ceylon Combined.

## PUBLIC FINANCE\*

### SOURCES OF REVENUE AND EXPENDITURE

THE principal sources of Central revenue are: customs duties, excise duties levied by the Central Government, corporation tax, income tax (excluding taxes on agricultural income), wealth tax, estate and succession duty, the earnings from the mints, terminal taxes on goods or passengers carried by railway, sea or air, taxes on railway fares and freights, taxes (other than stamp duty) on transactions in stock exchange and future markets, stamp duty on bills of exchange, cheques, bills of lading, letters of credit, insurance policies, transfer of shares, etc., taxes on sale and purchase of newspapers and on advertisements in newspapers.

The railways and the posts and telegraphs contribute to the Central revenues. There are also the profits on the Government industrial undertakings.

About as much as 81 per cent of the revenue is derived from the customs, excise duties, corporation and income-taxes.

The principal sources of revenue for the individual States are: State taxes (on agricultural income, lands and buildings, mineral rights, consumption or sale of electricity, sale or purchase of goods other than newspapers, advertisements other than in newspapers, goods and passengers carried by road or on inland

water-ways, vehicles, animals, boats, tolls, professions, trades, luxuries, amusements), capitation taxes, stamp duties, excise duties on alcoholic liquors, opium and other narcotics.

A point about the Sales Tax is worth mentioning here. The Union has the power of declaring any commodity as essential for the life of the community and thereby vetoing any sales tax levied on it by a State Government. This power comes from the Essential Goods Act of 1952.

Then there are the subventions from the Central Government. Part of the proceeds of the income-tax and excise duties are distributed

\* At the time of going to press the Central Budget for 1967-68 was just presented to the Parliament. As such, only those details as pre-

sented on that day are given in this article.

among the States. There are also special grants which are made to certain States.

Collection and appropriation of taxes are not always vested in the same authority. Some taxes are levied by the Central Government but collected and appropriated by the States (stamp duties, excise duties, duties on medicines and toilet preparations). Some are levied and collected by the Union but assigned to the States (estate duties on property other than agricultural, terminal taxes on passengers, railway fares, freights, stock exchange, future markets, newspapers or advertisements). Corporation tax is collected and retained by the Union, but taxes on other incomes are levied and collected by the Union and distributed between the Union and States.

The two biggest items of expenditure of the Central Government are outlay on development programmes (capital account) and defence.

Three important heads of expenditure of the States under the revenue account are: irrigation, security and social services.

Then there is public debt which consists of rupee loans, sterling loans and loans received from other countries. The rupee debt may be divided into three classes, long term loans and money market liabilities, the unfunded debt which includes provident funds, postal deposits, saving certificates, and last the deposits.

The Deputy Prime Minister, Mr. Morarji Desai, presented to the Parliament on May 25, 1967 a balanced Budget with a nominal surplus of Rs. 85 lakhs after taking into account a net additional tax burden of Rs. 68.71 crores proposed by him.

Mr. Desai made sharp increases in excise duties on a number of consumer and industrial commodities, calculated to yield Rs. 115.52 crores in a full year, of which nearly Rs. 23 crores would go to the States. He combined these with "selective but minor" concessions to individuals and the private sector, and a reduction of export duties on sacking, carpet-backing, jute specialities, other hessians, manganese and iron-ore fines.

The excise duties on coffee, tea, cigarettes, cigars and cheroots, jute manufacture, petroleum products, rayon and synthetic fibres, artificial or synthetic resin or plastic materials, cotton twist yarn and thread, and aluminium ingots were all marked up.

The Deputy Prime Minister reimposed the excise duty on footwear and parts and, for the first time, brought rubber piping, tubing and belting under excise. He put up postal, telegraph and telephone rates and tariffs to raise Rs. 3 crores in the current year and Rs. 4.44 crores in a full year.

The sharp mark-up in duties on cigarettes, tea and coffee, and motor spirit drew gasps of shock and surprise from members in the Lok Sabha. Otherwise, the House remained largely undemonstrative during the eighty minutes Mr. Desai took to read his speech.

Mr. Desai spared the corporate sector from direct burdens but conscious that he was belying expectations of a substantial cut in corporate taxation, argued that at present he saw no chance of sizable concessions contributing to larger revenues by stimulating activity or revenues in general.

The concessions to individuals and the corporate sector will cost the exchequer just Rs. 5 crores.

Mr. Desai raised from Rs. 25,000 to Rs. 50,000 the upper limit of income for widely-held domestic companies for qualifying for the concessional rate of 45 per cent. He extended the tax holiday for undertakings to eight years and included Indian-run hotels among priority industries receiving concessional treatment.

The Deputy Prime Minister made proposals for removing certain disabilities in the way of amalgamation of companies. He raised the rate

of development rebate for machinery and plant for scientific research from 20 to 35 per cent.

Although he made no mention of these in his Budget speech, Mr. Desai provided certain minor concessions also in respect of inter-corporate dividends, capital gains in the case of non-corporate employees, and relief to industry in respect of additional costs incurred by it due to devaluation, on capital assets imported by it from abroad before the date of devaluation on deferred payment terms and foreign loans.

The concessions, announced by Mr. Desai on personal income included raising of the exemption limit on the surcharge on unearned income to Rs. 30,000, exclusion from taxable income of dividend income not exceeding Rs. 500 during a year, and raising the limit of approved savings for tax relief to 30 per cent. of the total income. There were also minor amendments to the annuity deposit scheme.

The reduction in export duties will cost Rs. 14.35 crores in a full year.

There was no overall gap in the interim Budget but changes since then resulted in a gap of Rs. 41.86 crores, which subsequently increased to Rs. 67.86 crores on account of a proposed provision of Rs. 10 crores for financial institutions and Rs. 16 crores for contingencies. This gap is now covered by the Budget proposals.

The total receipts in the Budget year taking into account the impact of the taxation proposals are estimated at Rs. 4,519.92 crores comprising Rs. 2,768.14 crores of revenue receipts and Rs. 1,751.78 crores of capital receipts. The total expenditure is estimated at Rs. 4,519.07 crores, consisting of revenue expenditure of Rs. 2,454.49 crores and capital expenditure of Rs. 2,064.58 crores. This leaves a nominal surplus of Rs. 85 lakhs.

Mr. Desai's Budget is essentially aimed at restoring price stability by keeping the Plan outlays strictly in check. The provision for the Plan in the Budget for Central schemes, assistance to the States and to the financial institutions taken together is not materially different from the level of the first year of the current Plan.

Over and above the provision made in the interim Budget, Central assistance to the States has been increased by Rs. 98 crores, including Rs. 38 crores for the scarcity affected areas. An additional provision of Rs. 45 crores has been made for the Central Plan over and above the provision of Rs. 1,176 crores made in the interim Budget.

## PROPOSALS IN BRIEF

### DIRECT TAXES

#### Personal Concessions

1. Fixed allowance of Rs. 400 for the maintenance of dependent parents or grand-parents. (Loss Rs. 2 crores).

2. Exemption limit on surcharge on unearned income raised to Rs. 30,000. (Loss Rs. 75 lakhs).

3. Dividend income from Indian companies not exceeding Rs. 500 during the year excluded from taxable income. (Loss Rs. 1.50 crores).

4. Limit of approved savings in life insurance, Government and recognised provident funds, and cumulative time deposits in post offices, which qualify for tax relief, increased to 30 per cent. of total income.

5. Annuity deposit scheme continued with some marginal modifications.

6. Indian scientists, professors and research workers who spend a part of the year abroad allowed to deduct from their taxable income 50 per cent. of the remuneration received from foreign sources.

#### Corporate Reliefs

1. Concessional rate of 45 per cent. extended to widely-held domestic companies having total income not exceeding Rs. 50,000. Relief to small-scale industries. (Loss Rs. 18 lakhs).

2. Priority industry treatment for approved hotels run by Indian companies.

3. Carry-forward of unabsorbed benefit of tax holiday relating to assessment year 1967-68 onwards up to eight years from the year of commencement of business.

4. To promote desirable amalgamation of companies, existing disabilities in law will be removed.

5. Industrial units employing displaced persons from East Pakistan and repatriates from Burma, Ceylon and East Africa to deduct 50 per cent. of their profits in computing taxable income.

6. Industries damaged or destroyed by enemy action or natural calamity will be given certain tax concessions.

7. To promote scientific research the rate of development rebate on machinery and plant installed for scientific research after March 31, 1967, enhanced from the existing general rate of 20 per cent. to the priority rate of 35 per cent. Capital expenditure incurred after March 31, 1967 on assets used for scientific research allowed as a deduction in the year in which it is incurred.

#### Postal Rates

Rates of postage on parcels, registered newspapers, book packets, etc., registration fee and fees for express delivery, insurance and air mail fee on packets raised.

Minimum charge on ordinary greetings telegram and rate for express greetings telegram raised.

Rate for non-press inland telegrams unchanged, but minimum charge will be for first 8 words, instead of first 10 words.

Rental for teleprinter raised. Revision proposed in rental for part-time telegraph and teleprinter circuits other than those given to the press.

### INDIRECT TAXES

#### Excise and Customs

1. Excise on coffee and tea raised. (Yield Rs. 8.40 crores in a full year).

2. Duty on jute manufactures raised. Basic duties on hessian and other jute manufactures raised to Rs. 375 and Rs. 175 per tonne. (Yield Rs. 8 crores). Effect of higher excise on tea exports neutralised by a reduction in export duties by 24 paise per kg.

3. Duty on footwear and parts reimposed. (Yield Rs. 2.75 crores a year).

4. Duties on cigarettes raised substantially (Yield Rs. 28.50 crores a year). Some increase on cigars and cheroots. (Yield Rs. 1 lakh).

5. Basic duty on motor spirit raised from Rs. 451.05 per kilolitre to Rs. 550 and on refined Diesel and vaporising oils from Rs. 441.05 to Rs. 461.05. Excise on petroleum products not otherwise specified, raised from 10 per cent. to 20 per cent. ad valorem. No increases in kerosene, Diesel used by agriculturists or fuel oil used by industrialists (Yield Rs. 25.60 crores).

6. Basic duty on artificial or synthetic resins and plastic materials raised from 20 per cent. to 30 per cent. ad valorem. (Yield Rs. 4.5 crores a year).

7. Substantial increase in duty on rayon and synthetic fibres. Increase on cellulosic fibres and yarn lower than increase on non-cellulosic materials. (Yield Rs. 22 crores a year).

8. Basic duty on aluminium ingots raised from Rs. 300 to Rs. 950 per tonne. On plates, sheets, circles and strips it will be up from Rs. 500 to Rs. 1,450 per tonne. On foils, increase is from Rs. 600 to Rs. 2,000 per tonne. Duties on pipes, tubes and extruded shapes and sections doubled (Yield Rs. 10.98 crores a year). Increase on aluminium, rayon and synthetic fibres to be absorbed by producers. If that is not possible without a change in the consumer price, remedial action to be taken.

9. Excise on cotton twist, yarn and thread, used in the production of fine and superfine fabrics in the powerloom sector up. This will not affect handloom sector as duty on hank yarn is not raised. Duty on mill fabrics will be unchanged (Yield Rs. 7.80 crores a year).

10. Excise to be imposed on rubber piping, tubing and belting at 15 per cent. ad valorem. (Yield Rs. 1.98 crores a year).

No increases in import duties, but wherever excise has been increased or modified, countervailing duties on imported goods equivalent to such increases to be charged in addition to existing duties.

In the case of imported aluminium ingots and wire bars, increase in the countervailing duty will not be to the full extent of excise increases but will be lower. Increases in countervailing duties will yield annual revenue of Rs. 7.33 crores.

#### Export Duties

Duty on sacking (other than cotton bagging) cut by Rs. 150 per tonne, on carpet backing and jute specialities by Rs. 300 per tonne and on other heasians by Rs. 150 per tonne. (Loss Rs. 13.50 crores in full year).

Reduction of Rs. 7.50 per tonne in duty on manganese-ore having 10 per cent. or more but not more than 48 per cent. of manganese content. This will offset the effect of recent increase in railway freight on manganese-ore. Marginal reduction of Rs. 1 per tonne in duty on iron-ore fines, including blue dust. (Loss Rs. 83 lakhs in full year).

The following table shows the budget estimates of revenue and expenditure of the Government of India for 1967-68 as compared with the budget and revised estimates for 1966-67 and actuals for 1964-65 :

#### Revenue Receipts of the Central Government

(In lakhs of Rs.)

| Heads of Revenue                                    | 1965-66<br>Accounts | 1966-67<br>Revised | 1967-68<br>Budget  |
|-----------------------------------------------------|---------------------|--------------------|--------------------|
| <b>TAX REVENUE</b>                                  |                     |                    |                    |

## CAPITAL RECEIPTS AND DISBURSEMENTS

The estimates of receipts and disbursements on capital account of the Central Government are explained below. Capital disbursement either leads to creation of physical and financial assets or involves reduction in recurring liabilities. Similarly, capital receipt involves either creation of liability or reduction in financial assets. Disbursements on capital account also include items of expenditure like capital grants to States and food losses, etc., which are debited in the first instance to capital and are written back to revenue in the subsequent years. Likewise receipts also include items like the provision for reduction or avoidance of debt which is transferred to capital by debit to the revenue budget.

Mainly, disbursements on capital account include capital schemes undertaken by the Central Government and the loan assistance and capital grants given to State Governments and other parties. Thus the entire Plan activity of a capital nature whether undertaken by the Centre on its own account or by way of assistance through loans and capital grants to States is reflected here. On the side of receipts, these include borrowings abroad, market loans, sale of treasury bills, small savings, annuity deposits, State Provident Funds, investments of P.L. 480 deposits and various deposits under the Income-tax Act, depreciation and reserve funds of departments like Railways and Posts and Telegraphs and special *ad hoc* funds created from time to time by Government.

In brief the capital account shows the capital requirements of Government and how these are financed. Among the principal sources for meeting these requirements first, there is the revenue surplus. Secondly, regular loans are floated in the market. Thirdly, funds accrue to Government through small savings, annuity deposits and State Provident Funds, and through miscellaneous deposits and advances. Lastly, there are external borrowings. To the extent receipts from these sources fall short of the capital requirements the deficit is made good by the issue of treasury bills and drawal from cash balance.

The statement below gives a summary of the capital transactions :

The Budget for 1966-67 assumed an overall deficit of Rs. 31.75 crores. The deficit during the current year is now estimated at Rs. 350 crores (ignoring Rs. 50 crores of *ad-hoc* treasury bills converted into dated securities). The Budget next year shows neither a deficit nor a surplus as the expenditure provisions have been restricted to resources in sight on the basis of the existing levels of taxation and anticipated receipts and disbursements on Capital Account. The estimated receipts and disbursements on Capital Account by Major Heads of Account have been shown in the Annual Financial Statement of the Central Government. The Statement below gives by broad categories a summary of the estimated receipts and disbursements.

## RAILWAYS—(Contd.)

## 1957-58 BUDGET

The following is an account of the Railway Budget as it was presented to the Parliament on May 22, 1957.

Presenting the railway budget to the Parliament on May 22, 1957, the Railway Minister, Mr. C. M. Prasad, announced changes both in passenger fares and freight rates to bring a total increase of Rs. 48 crore in the remaining months of the current financial year. The increase was to take effect from June 15, 1957.

The additional amount of Rs. 14 crore from increase in passenger fares alone was proposed to be paid for the Budget to cover the extra 1,000 million passengers cross-country for the first time ever by rail.

Thus, the maximum fare of one paise for the journey up to ten kilometers has been raised to 15 paise—a 50 per cent increase. The increase justified the increase in the ground that increasing and ease of such fares alone had about 5-74 paise.

The increase is then progressively stepped up to one to three paise for journey between a distance of 10 to 25 km., 4 to five paise for distance of 25 km. to 47 km., and for more and a half per cent of the fares for journey up to 200 km.

A 50 per cent increase of 50 paise was proposed for all journeys beyond one km. by ordinary class.

The maximum fare for journey by mail or express trains has been raised by 100 per cent for journeys up to 1,000 km. At that distance, the increase will work at Rs. 4.75, and this will be the first year of increase for all journeys beyond a distance of 1,000 km.

Thus, the fare for first class from Delhi to Madras, for example, will be Rs. 50.75 from Rs. 33 against Rs. 40.00 now.

The Minister happened to notice the difference between the fare for Madras by ordinary and express or mail train, namely, with a view to increasing passenger traffic, long distance trains for every class journey.

## UPPER CLASSES

In the case of upper classes, Mr. Prasad has proposed a 15 per cent increase in first and second-class fares and a 10 per cent increase in the journey for air-conditioned third-class travel.

The increase in the fare of first class will amount to Rs. 11.25 up to 1,000 km., and this has been subject to the first year of increase for journeys beyond that distance as well.

In the second-class fare, a 10 per cent increase is being made to cover mail or express or mail train and ordinary fares. The mail and express fares will be raised by 15 per cent, as in the case of first class and the fare of Rs. 4.75 raised to 5.50 km. will be subject to the first year of increase beyond that distance as well.

The maximum fare by ordinary train is, however, to be raised by 110 per cent, up to 1 km. and 100 per cent beyond that km. and to 1,000 km., and the fare of Rs. 4.40 will be raised to that amount with the effect, as the first year of increase beyond that distance.

The Minister has also proposed to raise monthly season ticket charges for third class by a percentage of Rs. 1 to the monthly fare and Madras area will also for the first time.

Besides raising passenger fares, Mr. Prasad has increased the reservation charges from 10 paise to Rs. 1 for first class and from 5 paise to 10 paise for second class.

The price of platform tickets has been reduced from 10 to 5 paise.

## FREIGHT RATES

As regards freight rates, Mr. Prasad proposed to increase the supplementary rate in goods freight rates from 10 to 15 per cent. From June 15, 50 per cent of the increase in the rate of freight will be paid for the first year.

In addition, he proposed to make some adjustment in freight rates to cover the distance between and km. as the present freight rate was moving toward the maximum 100 km. and some amount of the cost of 100 km. These amounts would bring another 10 per cent to a full year.

The price for "small" consignments which short of full wagon loads—was also to be raised.

yield an additional revenue of Rs. 2 crores a year. Similarly, the special rates applicable to manganese-ore and iron-ore exports are to be raised as these exports have been enjoying a price advantage after devaluation.

Earlier, the Minister told the Lok Sabha that there might be a reduction of Rs. 17 crores in the estimated gross traffic receipts in the current year as revealed in his interim budget of March. Because of a shortfall in goods traffic, he now estimated the earnings on the basis of the existing freight rates at Rs. 668 crores against Rs. 685 crores assumed in March.

With the proposed increase in fares and freight rates, the gross earnings were expected to total up to Rs. 847 crores in 1967-68. Thus, there would be a net additional earning of Rs. 21 crores, of which it was proposed to appropriate Rs. 6 crores to the depreciation reserve fund, raising the contribution from Rs. 99 crores as shown in the March budget to Rs. 105 crores.

Even this provision, the Minister pointed out, would be Rs. 10 crores less than the contribution of Rs. 115 crores recommended by the railway convention committee for 1967-68.

#### NOMINAL SURPLUS

Taking into account an increase of Rs. 14 crores in ordinary working expenses and a re-

duction of Rs. 24 lakhs in the dividend as estimated in March, Mr. Pannu said, the railways to be left with a surplus of Rs. 1.28 crore at the end of the current financial year.

For this nominal surplus, he said, it would be evident that the revision of fares and freight rates has been kept down to the absolute minimum necessary for avoiding a deficit.

He was, however, conscious of the possibility of wages and prices continuing to rise beyond the present level and of the expected additional traffic failing to materialise. If that happened, the railways would still end the current year with a deficit.

A part from an increase of Rs. 70 lakhs to allow for the increase in steel prices from May 1, the entire increase of Rs. 14 crores over the March budget of working expenses consisted of an ad hoc provision for a possible increase in the dearness allowance after the Gajendraradkar Commission's report on dearness allowance had been considered by the Government.

Though coal prices were revised from April 1, no provision had been made at this stage because the provision in the March budget constituted a cushion, roughly equal to the fuel saved by the shortfall in goods traffic last year.

The increase in fares will be the lowest for third-class passengers by ordinary trains who amount for almost 90 per cent of non-subsidised railway travel, and the highest for the air-conditioned class of accommodation.

Revision of passenger fares is expected to bring about Rs. 16 crores this year, which comes to about eight per cent. of the passenger earnings.

The revision of freight rates is expected to bring in about Rs. 16 crores this year which comes to only 3.7 per cent. of goods earnings at present rates.

The main reason for this increase was that against an anticipated increase of four to five billion tonnes of goods traffic, the actual increase would be barely 2.5 million tonnes. As a consequence a shortfall of Rs. 14 crores was likely in earnings from goods traffic. In the interim budget, these earnings had already been scaled down to Rs. 498 crores from the budget of Rs. 512 crores.

Ordinary working expenses were likely to be Rs. 4.24 crores less and the dividend payable to General Revenue Rs. 24 lakhs less. With interest and other variations, the deficit for 1966-67 was likely to increase by Rs. 9 crores.

| Net Miscellaneous Expenditure              | 15.69              | 16.31                  | 16.91                        | 16.91                      |
| Net Revenue                                | 144.84             | 108.98                 | 141.84                       | 142.84                     |
| Dividend to General Revenue                | 114.28             | 132.66                 | 141.54                       | 141.54                     |
| Net Surplus (+) Deficit (—)                | +18.56             | —23.65°                | ...                          | +1.28                      |

\* The net deficit for last year, which was expected to be Rs. 15.27 crores in March, is now Rs. 4.61 crores higher. This is because of a shortfall in traffic receipts to the extent of Rs. 13.46 crores, according to latest figures of approximate available, offset by savings of Rs. 4.85 crores in expenses.

† This figure has been recomputed on a lower base of the traffic receipts for 1966-67 of Rs. 770.29 crores against Rs. 732.57 crores assumed in the March Budget and takes into account (i) additional earnings to the tune of Rs. 29 crores expected from additional traffic at current tariffs and (ii) additional earnings of Rs. 34 crores expected to be realised from the proposed adjustments in fares and freight rates.

‡ Includes an additional provision of Rs. 14 crores mainly to cover a possible revision in the rates of dearness allowance to staff in view of the increase in the cost of living since the last revision of the rates of dearness allowance in October, 1966.

§ The additional provision of Rs. 6 crores has been made so as to bring the appropriation to the Fund closer to the figure of expected withdrawal of Rs. 110 crores for expenditure during the current year.

Mr. Poonacha recalled his statement in March that the deficit in the interim budget was to be met by withdrawal from the railway's Revenue Reserve Fund. This deficit having risen to Rs. 24 crores, and considering the general budgetary position and the various other demands on the general resources, he said, there was no question of filling the current year's gap by a further withdrawal from this fund.

This fund was banked with General Finances and formed part of the balances of the Government of India and a withdrawal from it would affect the Government's ways and means position adversely.

#### ADDITIONAL REVENUE

The proposed revision of fares and freight rates would bring an additional revenue of Rs. 19 crores under each of the two heads, passenger revenues and goods traffic earnings, during the remaining period of 9½ months of the current financial year.

In a full year, the additional revenue would be Rs. 24 crores under passenger revenue and Rs. 23 crores under goods traffic earnings.

The following are the details of the proposed revision of fares and freight rates :

The increase in third-class fares by ordinary trains will vary from nil in a few cases to two,

three or five paise in others because opportunity has been taken to round off the fares to the nearest five paise.

Rounding off to multiples of five paise would reduce the constant complaints about shortage of change at stations and consequent inconvenience or loss to passengers.

The minimum fare for the air-conditioned class is to be raised from Rs. 5 to Rs. 10.

Minimum fares of Rs. 5 for first class and Rs. 3 for second class are also to be laid down for journeys by mail and express trains.

There will be no increase in season ticket fares for students.

The following table indicates the increase contemplated in the fares between certain selected centres :

|                     | A.C.     |          | I Class  |          | II Class Mail |          | III Class Mail |          |
|---------------------|----------|----------|----------|----------|---------------|----------|----------------|----------|
|                     | Existing | Proposed | Existing | Proposed | Existing      | Proposed | Existing       | Proposed |
| 1. Delhi-Bombay     | 183.50   | 211.00   | 97.25    | 111.75   | 57.75         | 66.40    | 31.75          | 35.70    |
| 2. Bombay-Howrah    | 250.00   | 287.50   | 131.25   | 146.75   | 78.00         | 87.25    | 42.40          | 46.60    |
| 3. Bombay-Madras    | 170.75   | 196.25   | 90.75    | 104.25   | 53.90         | 62.00    | 29.70          | 33.40    |
| 4. New Delhi-Madras | 275.25   | 316.50   | 144.25   | 159.75   | 85.70         | 94.95    | 46.50          | 50.70    |
| 5. Delhi-Howrah     | 189.75   | 218.25   | 100.50   | 115.50   | 59.70         | 68.65    | 32.75          | 36.85    |
| 6. Madras-Howrah    | 214.25   | 246.50   | 113.00   | 128.50   | 67.15         | 76.40    | 36.70          | 40.90    |

Explaining the rationale behind these increases, Mr. Poonacha pointed out that third-class fares for journeys by ordinary trains up to 50 km. had been traditionally kept at a specially low level because of the very large proportion of passengers (87 per cent.) performing such journeys. The increase is being kept as low as possible.

Mr. Poonacha said that revision of the minimum fare for third class ordinary from 10 paise to 15 paise would not mean a significant

burden on travellers since the distance between two stations was normally more than five km. excepting in the suburban areas where most of the passenger traffic was on season tickets which carried a very heavy element of concession and which would not be affected by this change.

#### CONCESSIONS

The Railway Minister, Mr. C. M. Poonacha, announced in the Lok Sabha on June 5, 1967

that food grains would be exempted from the supplementary freight charge envisaged in the Railway Budget. He also announced that he had decided to reduce the 7.5 per cent increase in third-class fare to only 5 per cent.

Mr. Poonacha announced the Rs. 3.7-crore concessions while replying to the Railway Budget debate. He said he also proposed to appoint a parliamentary committee to go into the problems of passenger amenities *de novo* and also examine ways to improve catering.

# J. B. ADVANI & CO. PRIVATE LTD.

ESTABLISHED 1908

## HEAD OFFICE: BOMBAY

IN 1908, three intimate friends, Kanwalsing Pohumal, Vasanmal Kishenchand and Jotsing Harising, formed themselves into a Company called J. B. Advani & Company with a view to specializing in the import of Paper and Printing Materials. This Concern was the first of its kind in Sind. The pioneers, who envisaged a great future for this line of business, opened an office in Karachi. In a very short time their confidence was justified and the venture became a huge success. The markets within reach having been tapped to the fullest extent, a Branch was opened in Bombay in 1921. In spite of the very keen competition that usually prevails in Bombay, which is the premier and largest paper market in India, the Company very soon became one of the leading firms in the line with its business growing in volumes from year to year.

In 1925, the proprietors decided to convert their firm into a Private Limited Company—J. B. Advani & Co. Ltd.—with a capital of Rs. 6,00,000.

In 1925, the management began to explore the Punjab market more energetically with a view to developing the business handled by the Head Office at Karachi and a Branch was accordingly opened in Lahore. This was followed by the opening of a Branch in Madras in 1927, which has made steady progress year by year. Three years later, another Branch was opened, this time in Calcutta. Branches have since been opened in Delhi, Jullundur, Cochin and Visakhapatnam.

The Directors of this Company started a new concern under the name and style of J. B. Advani & Co. (Mysore) Private Ltd. at Bangalore.

After partition of India, the Company's interests in Pakistan were converted into a non-resident company.—J. B. Advani & Co. (Pakistan) Ltd., with Head Office at Karachi and a branch at Lahore.

With its network of branches in all the important centres in India, J. B. Advani & Co. Private Ltd. today reaches every notable consuming centre in India.

The Company has a Paid-up Capital of and Reserves of Rs. 50,00,000. Besides, it has the substantial backing of its Directors and their relatives, and the Working Capital is actually in the vicinity of Rs. 1,50,00,000. The Company, with its branches and its tradition of over half a century as the largest importers of Paper in India, with a turnover of Rs. 3,00,00,000 per annum, have since the last few years entered and specialised in machinery trade, dealing in Refractory Products, Arc & Resistance Welding Machinery & Equipment, Machine Tools, Plate & Sheet Metal Working Machinery, Building Machinery, Graphite Electrodes, all precision Machines to manufacture clocks, Time-pieces, watches and parts, bicycle parts, Refrigerator parts, etc. of Swiss and German origin, Gas or Oil fired Furnaces, Printing Inks etc. and is open to take up representation of Indian and foreign manufacturers of Paper and Machinery. The Company also exports, specially Tea, Textiles and Malabar Hill products.

In 1951 some of the Directors jointly started a modern Printing Ink Factory in collaboration with foreign experts at Bhandup, Bombay and today J. B. A. PRINTING INKS PRIVATE LIMITED have their vast clientele spread all over India and the neighbouring countries.

Another enterprise with which they are associated is the one for the manufacture of Welding Electrodes, probably the first major attempt in this field of industry in India. In partnership with the Oerlikon Machine Tool Works (Messrs. Buehrle & Co.), Zurich, Switzerland, the world famous manufacturers of Welding Electrodes, a new company has been floated under the name of J. B. ADVANI-OERLIKON ELECTRODES PRIVATE LTD. with 80 per cent of the share capital subscribed by J. B. Advani & Co. Private Ltd. With an up-to-date factory and most modern production line, this factory, situated at BHANDUP (Central Rly.), Greater Bombay, is producing now some of the best Welding Electrodes in the world. They have amongst their patrons, Government, Railways, Shipyards, and Great Steel fabricators of India. Branch factories to manufacture electrodes have been set up at Raipur and Madras while a new factory with Czech collaboration is set up at Chinchwad, Poona to manufacture Arc Welding Generators. It is now in production.

A third enterprise with which they are connected is the one for the manufacture of Drinking Straws and Waterproof Kraft Paper. Messrs. IDEAL WRAPPERS PRIVATE LTD. have the leading Aerated Water manufacturers and Textile Mills as their patrons. This factory is also located at Bhandup.

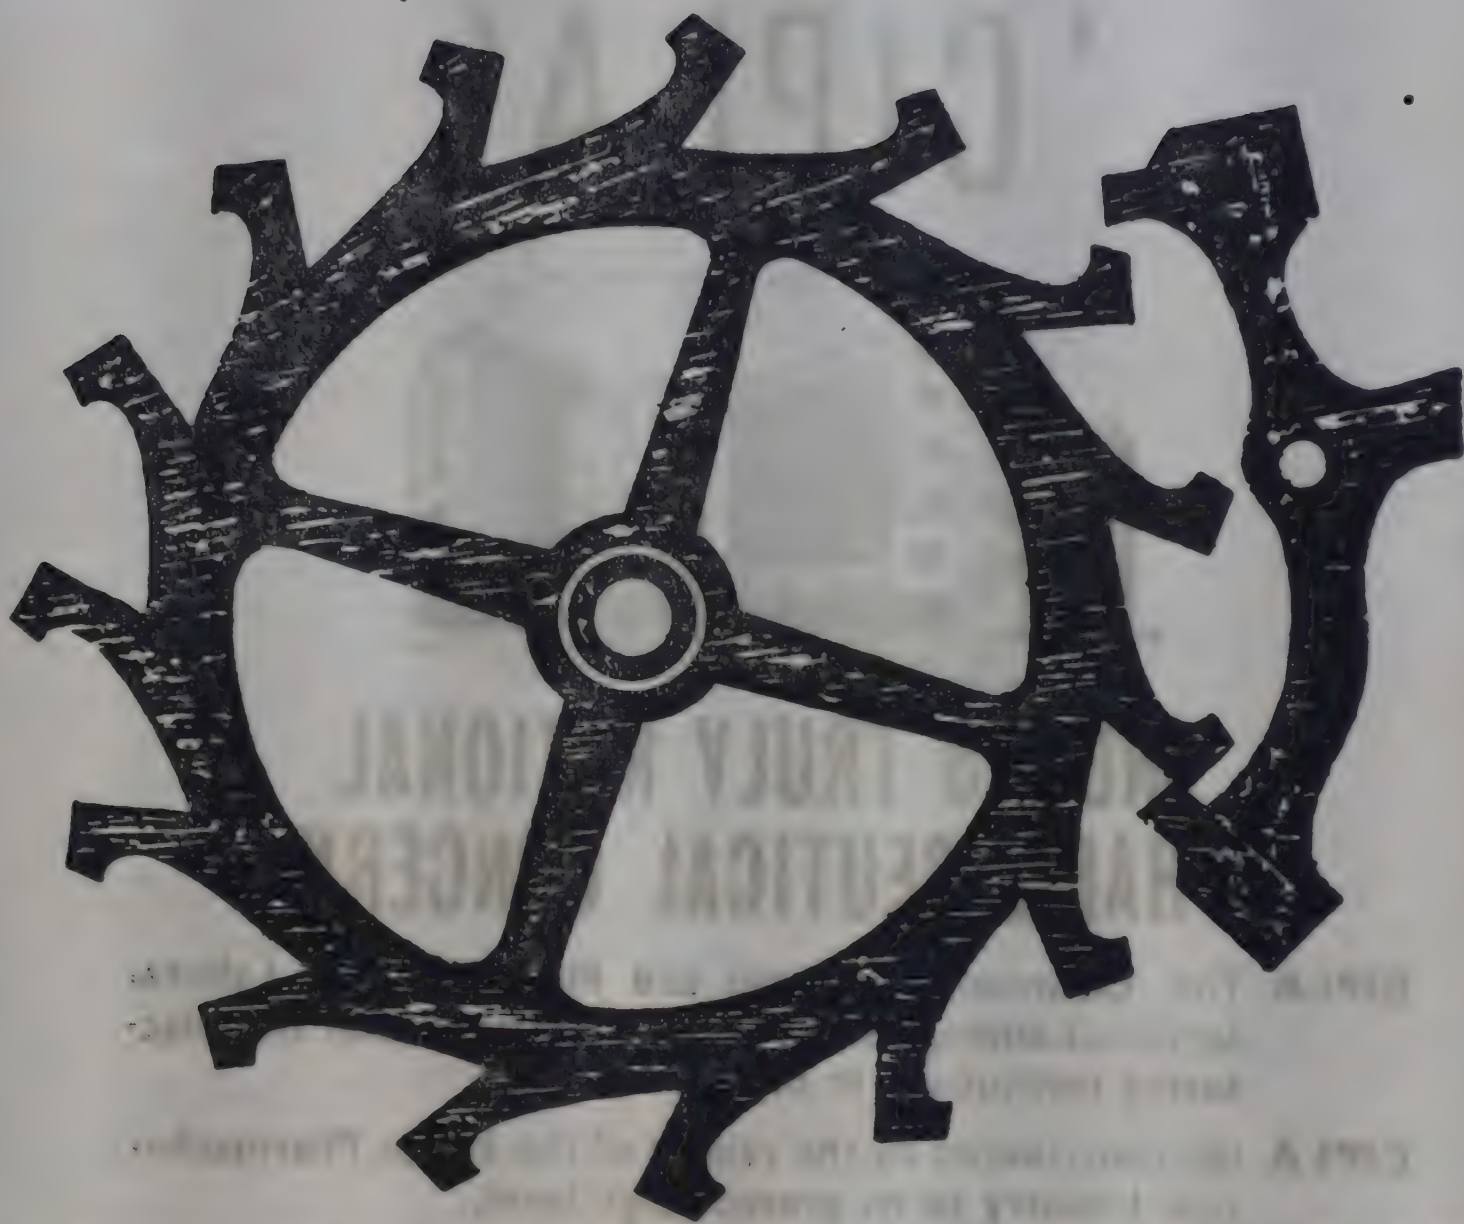

Now they have their own factory at Hay Bunder, Sewri, manufacturing Arc Welding Transformers accepted by users as perhaps some of the best, comparable with similar types manufactured in advanced Western countries.

## EVERY MINUTE TOWARDS YOUR PROSPERITY"

The industrial wheel is moving—and the nation moves towards prosperity—this minute, this very minute, every minute for that matter. Count ten—and the contour of the nation changes. So fast, so sure and so inspiring are the ways of the wheel. Far-reaching, too. The wheel turns toiling millions into true citizens. It brings laughter and

gaiety to their lives; adds a new meaning and dimension to their existence. We at J. K. have been busy with it for the last century—and a half. Today we employ about 45,000 persons in our chains of industries ranging from machinery to paints, jute to typewriters, textile to chemicals. We endeavour to make life fuller and worth living.
